

Group Advising for All Biological Sciences Majors

**Presented by CAS Advisors
and Biological Sciences Faculty**

**Monday August 27, 2018 - SE 3126
3:00 pm and 4:00 pm**

Topics to be covered include:

- Graduation requirements for each Biological Sciences specialization.
- Biological sciences courses offered in Spring 2019, and the requirements they fulfill.
- How to get involved in research and student activities outside the classroom.
- Finding out about research, internship and job opportunities.
- What can one do with a biological sciences degree? Suggestions for finding a career.
