

Office of Research and Projects Presents Introduction to New Funding Database

A new funding database called **Grant Forward** has arrived at SIUE to accommodate searches for external funding sources.

Attend a one-hour session where we will introduce participants to profile creation and basic search methods in the database. No previous experience with databases is required.

9:30-10:30 a.m.

Tuesday, April 12

Alumni Hall, Room 1203

With Grant Forward, users have access to over 8,000 federal opportunities and 6,000 foundation opportunities in the arts, medical sciences, education, humanities, social sciences, business, technology, physical sciences, law and more. Saving searches makes it simple to return to and revise your search terms. In addition, researcher profiles allow one to search the extensive database for qualified collaborators.

If you have any questions please contact Lisa Lawrence at llawren@siue.edu or Teri Gullledge at tgulled@siue.edu.
