VALUABLE INVENTION.

Office -- 314 Olive Street, St. Louis, Mo.

Among the many inventions of the present day, no single one s deserving of more general approval than the accomplishment of that has heretofore been regarded as an impossibility. For years ventions have been gotten up to meet the demand of book-keepers and accountants, who have, necessarily, a large amount of writing to do daily, so as to obviate the great loss of time, together with the annoyance of replenishing the pen with ink, to say nothing of the annoyance of getting the fingers soiled with ink, more or less of which would drop on the books, thus placing them in a bad condition. Again, different men require pens of different stiffness or elasticity, and the result has been, after many experiments, many had given up all hopes of the feat being accomplished. This great achievement, however, has at length been accomplished, and a suffering public will thank Mr. S. W. Higgins for his indomitable perseverance and ingenuity in accomplishing the greatly needed
