

## Certification of Prior Standard Specific Training for Persons Listed Below

| Name | Employee ID# | Department | Job Title |
|------|--------------|------------|-----------|
|      |              |            |           |
|      |              |            |           |
|      |              |            |           |
|      |              |            |           |
|      |              |            |           |
|      |              |            |           |

  

| Training Course                | OSHA Outreach Training to General Awareness Level | OSHA Outreach Training to Industry Standard Specific Level | Industry Standard Specific Training |
|--------------------------------|---|--|-------------------------------------|
| Elect. Hazards & NFPA 70E      |   |  |                                     |
| Hearing Conservation           |   |  |                                     |
| Hazard Communication           |   |  |                                     |
| Lockout/Tagout                 |   |  |                                     |
| Permit Required Confined Space |   |  |                                     |
| Bloodborne Pathogens           |   |  |                                     |
| Fall Protection                |   |  |                                     |
| Powered Industrial Trucks      |   |  |                                     |
| Asbestos Awareness             |   |  |                                     |
| Asbestos O&M                   |   |  |                                     |
| Asbestos Supervisor            |   |  |                                     |
| First Aid/CPR                  |   |  |                                     |
| Respirator                     |   |  |                                     |

OSHA Outreach Training is commonly known as OSHA 10 Hour or 30 Hour training or certification. Per OSHA's Outreach Training website "*This is a voluntary program and does not meet training requirements for any OSHA standards.*" This means that an OSHA 10 or 30 certification card does NOT automatically meet standard specific training requirements for our employees. However, the optional time in those courses MAY be used to add the depth necessary to meet the standard specific requirements.

By checking the "OSHA Outreach Training to Industry Standard Specific Level" box for a subject listed above I am certifying that the Outreach Training was modified to meet those standards.

By checking the "Industry Standard Specific Training" box for a subject listed above I am certifying that the persons listed were trained in a separate course to meet that industry standard.
