

Why is my MAP award on my award letter
twice?

Your MAP award is on your award letter twice because of the way Banner, the new software program for the student database, is designed. To get the correct amount to pay into your account, "Illinois MAP Grant EST" is put on your award for the total amount you are being awarded for the academic year, fall and spring semester. "Illinois MAP Grant" is the amount that is actually paying for the semester. So that this does not interfere with the amount of money you are able to receive, your Cost of Attendance was increased by the Illinois MAP Grant amount.
