**EXPLORE** your future

## Interpersonal Communication ...an examination of communication between people.

This course will take an interactive approach and explore several key areas to interpersonal communication.

Samples of topic areas include:

- Conflict Management
- Perception
- Listening
- Nonverbal Communication
- Intercultural Communication

Effective communication requires interpersonal skills. A person with good interpersonal skills can relate to and work with diverse individuals, recognize and negotiate differences, handle conflicts, communicate assertively and listen to information objectively.

Do you have the interpersonal communication skills necessary for your future success? Register today and find out.
