

Guidelines for becoming an Urban Scholar

Step 1:

- Prospective researchers meet with the IUR director to determine their fit with the IUR research agenda.

Step 2:

- A proposal is submitted to the IUR director.

Step 3:

- If the proposal is approved a variable amount of internal funding (\$500 to \$3,000) is provided during one fiscal year.

Step 4:

- At the end of the internally-funded time period, the Urban Research Scholar will pursue external funding with the IUR as the “Department” and the Graduate School as the “Unit.”
