

SOUTHERN ILLINOIS UNIVERSITY
EDWARDSVILLE

Parking Services Fact Sheet
Fall 2010

The deadline for having a current parking permit in the red, yellow or brown lots is August 30. The deadline for all other lots is August 23.

Evening permits are available for students with evening classes. They allow students to park in Lots A or E after 3:00 p.m. They are also honored in the red permit lots anytime.

A student lottery for a chance to purchase a limited number of green permits is conducted by Parking Services. You may register **one time only** via the Parking Services website at <http://www.siu.edu/parking>.

Names selected will be posted in the Parking Services office and on the website on August 13. The green permits must be purchased online.

You will receive online instructions about picking up your permit after purchase.

Residential students may purchase permits for Cougar Village or the residence halls. If the residential student obtains a green permit through the lottery, a Housing sticker will be affixed to the tag by Parking Services so that it will be honored in the residential lots.

We suggest you purchase your permit online at <http://www.siu.edu/parking>.

If you choose to post the cost of the permit to your student account, there will be no credit card processing fee. To obtain a parking permit in the Parking Services office, you must present a picture identification card, such as a University ID and current vehicle information. **You must also have NO outstanding parking citations.** Parking Services accepts cash, check, Discover, MasterCard, Visa, Student ID Debit Card or will post the charge to your student account.

Student parking is open in the red, yellow and brown permit lots during break periods. Break periods include spring break week in March and all weeks that classes are not in session between fall, spring and summer semesters. This includes Cougar Village and the residence halls.

If you have any questions, please call the Parking Services office at 618/650-3680.
