A copy of this report was provided to all committee members for their review. Tony reported that citations are down. Laura requested a report to show the last four years and how the citations have decreased.

C. Campus Construction Update – Facilities Management: Facilities Director, Craig Holan, was present to give an update. He reported the one fence was removed in Lot A and another fence was installed and will probably go down in the fall. This is an open space that will be utilized by different construction companies as different phases of renovation construction occur on campus over the next two years. Swing space is normally utilized by trailers moving certain areas out of buildings temporarily into them while renovation is taking place. Renovation construction will probably be ongoing for the next 4-6 years. The sidewalk contract bids open this afternoon. A couple spaces by Lot A will be left off the contract and picked up later when construction is completed. Tony added that will be good for Parking as we resurface Lot A. It will make it easier for resurfacing Lot A. Tony added that a look into the traffic flow will also be done in 2019, to reconfigure the parking spaces with the traffic flow.
