Course Attributes

- Attributes describe the ***characteristics*** of a course and how that course fits into SIUE curricula. Accuracy of course attributes is imperative. CAPP, our Banner automated degree audit, will be driven by attributes.
- For example, SIUE ANTH 111 Introduction to Anthropology carries two attributes: Introductory Social Science (ISS) and International Culture (IC). In the automated degree audit, CAPP will look for ISS and IC, not ANTH 111, to fulfill General Education requirements.
