

SIUE Math Club Meeting Minutes 2/27/08

For our last meeting, here is a recap of the topics we discussed:

- We talked about having officers for the math club (along with officers of Pi Mu Epsilon). This would be a great way for non-PME members to have an active role in the club. We are hoping to talk more about this at our next meeting, and even possibly electing officers if there are enough members present.
- Dr. Weyhaupt is waiting the arrival of Flatland, a movie that we are planning on watching together. We were thinking of watching this movie and eating some popcorn as an end of the semester party (maybe in April).
- Dr. Chew is starting to think of fun math problems for the Problem of the Month. A \$10 prize will be awarded to the most correct and interesting answer.
- We want to get math club t-shirts ordered soon. We spent a lot of time looking at different designs, and all decided on one idea. I am in the process of getting price estimates so we can hopefully order soon. Below is a copy of the image we want to put on the shirts along with "SIUE Math Club."

If you have any different ideas, let me know!

- Pi Day!!! Since 3/14 is on our Spring Break and not many students will be on campus, we decided to celebrate Pi Day on the Monday we return from Spring Break. It will be a social event with pizza and more fun math talk. It will be at **7:30 p.m. in SL 1211.**
