

The Fourth Conference on Function Spaces **2002** at SIUE

WELCOME

LECTURES

The Conference talks will start at 9 a.m. on Tuesday, May 14, 2002, in the Science Building on the SIUE campus, in Auditorium 1105. The lectures will take place in the two main auditoriums in the Science Building: SL 1105 and SL 3114. In the morning and early afternoon there will be plenary talks in SL 1105, and in the late afternoon there will be two parallel sessions, each devoted to a specific subject. The auditoriums are equipped with blackboards and overhead projectors (both classical/manual and computer type); the projectors may be preferable in such large rooms.

INTERNET ACCESS

There are several places on the campus where you can access the Internet. The most conveniently located ones are:

- Computer Lab on the main level of the Bluff Residence Hall (the dormitory) ñ open 24h a day;
- Computer Labs on the main level of the Science Building ñ rooms SL 1225 and SL 1211A ñ open between 8 a.m. and 4 p.m. on weekdays;
- There are also several computers with web browsers (no telnet) in the main lobby of the Library (immediately to the East of the Science Building).

LIBRARY

Since the Conference takes place during the break weeks the Library will be closed during the weekends, and open only between 8:00 am and 7:00 pm during the week. The mathematics section is located on the third floor of the library; the new journals are on the second floor.

PROCEEDINGS

We plan to publish the Proceedings of the Fourth Conference in the AMS series CONTEMPORARY MATHEMATICS. The AMS already granted a provisional approval for the project. According to the policy of CONM the final approval can only be granted after receipt and review of all referee reports for papers to appear. The final versions of the manuscripts should be received by the Editor **by September 1, 2002** (an earlier submission will be *greatly* appreciated).

MEALS & SOCIAL EVENTS

Breakfast: 7:45 ñ 8:45 a.m. (Tu, W, Th, F, Sat.)
Lunch: 12:15-1:15 p.m. (Tu, W, Th, F, Sat.)
Receptions: 6:30-8:3 p.m. (Tu & Th)

The above meals will be served in the Bluff Residence Hall, the cost is covered in part by the registration fee and in part by the NSF grant so there will be no charge for the registered participants.

On Wednesday, Friday, Saturday, and Sunday evenings there will be no dinner served on the campus; we have two vans to help with the transportation to local restaurants - please sign up, by 3 p.m. on one of the lists posted by the lower level auditorium. If you have your car here, it would be of great help if you drive yourself and take few colleagues, you can still sign up by 3PM for the restaurant reservation.

PARKING: please register and get a parking permit before parking on any university lot.
