

What concerns do you have about preparing/offering classes for online or hybrid delivery during upcoming semesters?

Not ideal for some courses  
Reduced enrollment caps for online courses  
Make sure we can have some synchronous online classes  
Need to be able to have scheduled times on CougarNet  
Need to work on online presenting  
Exams  
Need to require office hours, set response times for email  
Honor the class times students registered for  
How research will be impacted  
Academic honesty standards  
Student engagement  
Admin need to be aware that it is more prep time is required for online instruction  
Difficult to get all students participating in group discussions  
Students learning physical skills  
Information overload -- too many emails from admin  
Captioning for lectures  
Students need to be allowed on campus  
Promote online counseling for students  
Allow profs to do their work in their offices (inconsistent internet; computer/software issues at home)  
Need to know what we are doing in a timely manner  
Small classrooms, too close for proper distancing  
Student access to technology and internet  
No one (faculty or students) should be forced to come to campus for class  
Provide options

What kind of support would help address your concerns?

More info about zoom's capabilities  
More info about teams  
Tutorial on creating more sophisticated online lectures; cut between Powerpoint, video, etc.  
Hybrid classroom technology; streaming lectures  
Summer training for software and platforms  
More GA lines to assist in online instruction  
Update computers and other technology
