

Describe a technique that you developed or employed that proved to be effective for student engagement and/or learning

Synchronous zoom classes

Recorded lectures over powerpoints to be viewed asynchronously

Zoom breakout rooms for discussion

Everything available at the same time each week

Due dates and times were consistent and communicated in a weekly newsletter

Polls in zoom classes to make sure the students were actually there

Zoom for student meetings

Clear expectations for students prior to their synchronous meetings (come ready to discuss XX)

"Wrote" on pdf notes for students to see during lectures

Narrated powerpoint slides on OneDrive (could keep track of how many people accessed them)

Department provided document cameras for faculty

Integrated COVID19 information and challenges into application examples

Relaxed deadlines; gave them space to learn

Weekly announcement short videos and optional zoom sessions

Used Teams for small group meetings in capstone course

Frequent quizzes

Consistent communication

Clear feedback on work

Reminder emails
