 - b. Tentatively, there is an increase in the average ACT score.
 - c. Diversity of the student body increased as well.
 - d. US News & World Report ranking SIUE as one of 77 up & coming universities continues to create a positive buzz. Especially as other colleges & universities nominated SIUE.
 - e. Grants have also increased to \$30 million with 42% of faculty writing grants now.
2. Science building update. There is strong work behind the scenes to be in the year one phase of the capital bill.
3. Student Success Center dedication went very well. The emphasis on creating a student center that focuses on retention, graduation and allows for the collaboration between Academic Affairs & Student Affairs was well received.
4. Early Childhood Center ribbon cutting was held earlier in the week. All were encouraged to visit the beautiful facility and see the great work the staff has put into preparing it for the children.

5. The changes in MAP funding will affect about 2500-2600 SIUE students. Dr. Poshard has been asked to be involved by the Governor at the state level. There is hope that funding for the spring semester will be restored during the Illinois Legislature's fall veto session.
