- Master of Science in Clinical Child and School Psychology
- Specialist in School Psychology

Specialization

- School Psychology

Clinical Child and School Psychology at SIUE

In SIUE's School of Education, Health and Human Behavior, the clinical child and school psychology program within the Department of Psychology is comprised of two separate tracks: the clinical child psychology track and the school psychology track. Students in the clinical child track are trained to work in organizations serving children, adolescents, and families. Graduates may work in community mental health agencies, hospitals and residential treatment centers. Students in the school psychology track proceed after graduation into the specialist degree program to be eligible for certification as school psychologists in Illinois. The specialist degree program has been fully accredited by the National Association of School Psychologists since 1999.

Career Opportunities

The job prospects for students who enroll in and complete the requirements for the specialist degree program in school psychology are excellent due to a nationwide shortage of school psychologists. Students in the clinical child track have a strong track record of getting accepted into doctoral programs. Those who decide to conclude their education at the master's level find employment in a variety of clinical and community agencies.

Admission Requirements

- Graduate School application, including program questions, and \$40 fee
- Submission of all postsecondary academic transcripts
- Successful completion of a bachelor's prior to enrollment
- Minimum GPA of 2.50
- Graduate Record Examination (GRE) scores: verbal, quantitative, and writing areas
- International Applicants: Proof of English Proficiency, minimum requirements are TOEFL (79), IELTS (6.5) or equivalent
- Three letters of recommendation
- Goal statement / statement of purpose
- Resume / CV

Program application materials may be uploaded during the application process, but official transcripts must be sent directly from the school attended, and test scores must be verifiable with the appropriate testing service. Please contact the Graduate Admissions office with questions regarding the application submission process at graduateadmissions@siue.edu.

Completing an undergraduate major or minor in psychology is the desirable and typical undergraduate preparation for a graduate degree in psychology. Qualified applicants from other academic backgrounds may enter the psychology graduate program provided they have completed the prerequisites. In addition to completing at least one (1) course each in introductory psychology, research methods/experimental psychology, statistics, and psychological tests and measurements. Applicants may be accepted provisionally if they are missing one or two prerequisites provided they complete these prerequisites prior to beginning the graduate program.

Review the SIUE Admissions Policy for more information.

Application Deadline

New students are admitted exclusively in the fall semester (which begins in late August). All application materials are due no later than **January 15**.
