GRADUATE

Healthcare and Nursing Administration/ Healthcare Informatics

School of Nursing

SIUe

Healthcare and Nursing Administration / Healthcare Informatics at SIUE

This dual major program prepares nurses for entry into management positions in healthcare organizations and refines the skills of experienced nurse managers to mentor them for executive-level positions.

Additionally, this program fosters skill development and perspective in planning, designing, implementing and using information technologies. The program provides a unique opportunity for healthcare professionals to leverage prior education and experience to provide leadership to teams using technology to improve patient healthcare options.

Out-of-state students are strongly encouraged to discuss clinical requirements with the assistant dean of graduate programs. Clinical arrangements are not able to be made in all states. Please note that international students are ineligible to receive a student visa for this program. For more information, visit siue.edu/consumer-disclosures.

Degrees Available at SIUE

• Master of Science in Healthcare and Nursing Administration and Healthcare Informatics

Course Format

Fully online

What can I do with a degree in healthcare and nursing administration/healthcare informatics?

Graduates will be well prepared to guide and lead other nurses by becoming managers, leaders and executives. Graduates will also be prepared to analyze and interpret clinical data, and work with other allied health professionals to plan, implement and optimize healthcare information systems providing training, project management and leadership within their organizations.

Priority Application Deadlines

• Fall Applicants: June 1
• Spring Applicants: November 1

Applications may still be accepted after these deadlines if space allows.

Required Credit Hours/Tuition and Fees

• 57
• Visit siue.edu/graduate-tuition for detailed tuition information

	Total Credits	5	**Total Hours: 57**	

Admission Requirements

- Graduate School applications and $40 fee. (A separate application must be submitted for both the Healthcare Informatics program and the Healthcare and Nursing Administration program.)
- Submission of all postsecondary academic transcripts
- A degree in nursing from a CCNE or ACEN accredited program. Graduates from non-CCNE or ACEN accredited program may be evaluated on an individual basis. Please contact the School of Nursing for more information.
- Minimum undergraduate nursing GPA of 3.0 on a 4.0 scale
- Submission of personal statements for each application
- Submission of three reference forms
- One must be from your current manager
- Two preferably from nurses holding a graduate degree in nursing or a related field
- International Applicants: Proof of English proficiency, minimum requirements are TOEFL (79), IELTS (6.5) or equivalent

Graduation Requirements

Master's Terminal/Capstone Project

Master's students demonstrate synthesis of their coursework, practicum experiences and attainment of the master's student outcomes by creating a rigorous, scholarly, evidence-based project that incorporates a broad review of the literature from nursing and related fields, and present the project orally to students and faculty during the final synthesis course for the specialization.
