MPA graduates are also employed in a number of state and federal agencies, including:

Local and state governments are among the largest employers in the economy and job prospects are favorable. Job growth will stem from the rising demand for services at the local and state level, particularly demand for public safety and health services.

Two factors are fueling the growth of these services:

- Increasing population

Local and state jobs, however, are susceptible to budgetary constraints, which is why **advanced degrees are highly recommended in order to compete.**
