

Undergraduate Nutrition

Degrees Available at SIUE

- Bachelor of Science, Nutrition

Nutrition at SIUE

The Bachelor of Science in nutrition focuses on the study of foods and nutrients and their effect on the health of individuals. Housed in the Department of Applied Health, the program combines coursework in both the basic sciences and nutritional sciences to provide students with the preparation needed to excel in a variety of professional nutrition and health settings. An intensive study in biological and physical sciences is emphasized as a basis for understanding the science of nutrition and the relationships between nutrients and human health. Core course requirements focus on human nutrition with areas of study in energy metabolism, proteins, vitamins, minerals, community nutrition, and diet in the prevention and treatment of diseases. At SIUE, the major in nutrition is designed to meet the admission requirements for post-graduate programs in dietetics, as well as admission requirements of most colleges of medicine, nursing, dentistry, optometry, pharmacy and other healthcare professions.

What can I do with a degree in nutrition?

According to the U.S. Bureau of Labor Statistics, national job growth for dietitians and nutritionists is expected to be 15% through 2026. At SIUE, we provide the curriculum and pre-professional training for students wishing to enter graduate school to pursue programs in nutrition/dietetics on their way to careers as registered dietitians. Students must complete graduate training and 1,200 hours of internship to begin a career as a registered dietitian (RD). The role of nutritionists and dietitians will continue to be important as the understanding of food and nutrition in preventing and treating illnesses becomes more prevalent.

The major prepares students to enter graduate school programs in dietetics and other life sciences. Graduates in nutritional sciences qualify for positions in the food industry, corporate wellness and health promotion programs, public health programs, pharmaceutical sales, and similar occupations. Other career opportunities are also available for students with a bachelor's degree in nutrition in areas such as community and public health, consulting, the food/nutrition business industry, food service management, research and education, sports and wellness nutrition, or corporate wellness.

Admission Requirements

To be admitted to the nutrition program, students must:

- Earn a grade of C or better in Biology 140 or Biology 150 or its equivalent
- Earn a C or better in Chemistry 120A and Chemistry 124A or Chemistry 121A and 125A or their equivalents
- Earn a B or better in KIN 275, Introduction to Careers in Nutritional and Exercise Science
- Have a cumulative GPA of 2.75 or higher

Application Deadline: Ongoing

Direct Admission Program

High school students with a strong academic record may apply for direct admission into the nutrition major. Students must have earned at least a 25 composite ACT score (1150 SAT) and at least a 3.25 high school GPA (on a 4.0 scale) to be eligible for direct admission to the program.

This admission is contingent upon the student meeting state and program-specific retention requirements while a student at SIUE.

Faculty

Through excellence in teaching, research and service, our faculty members work with students in and out of the classroom to engage and prepare them for successful careers in the health sciences. Our faculty members hold doctoral degrees from universities throughout the country and utilize a variety of teaching methods to provide an exceptional learning experience for students. Faculty members have extensive experience supervising award-winning, student-led research, which is presented at numerous national, regional and local conferences each year.

Sample Curriculum for the Bachelor of Science in Nutrition

	Fall Semester	Spring Semester
Year 1	ENG 101 English Composition I	ENG 102 English Composition II
	ACS 101 Public Speaking	BIOL 250 Bacteriology*
	BIOL 140 or BIOL 150 (BLS*)	BIOL 240A Anatomy & Physiology I*
	PSYC 111 Psychology (BSS*)	Experience US Cultures (EUSC; SOC or ANTH recom)
	CHEM 120A General, Orgc and Biol Chemistry (BPS*) or CHEM 121A General Chemistry	CHEM 120B General, Orgc and Biol Chemistry (BPS*) or CHEM 121B General Chemistry (BPS*)
	CHEM 124A General, Orgc and Biol Chemistry Lab (EL*) or CHEM 125A General Chemistry Lab I (EL*)	CHEM 124B General, Orgc and Biol Chemistry Lab (EL*) or CHEM 125B General Chemistry Lab II (EL*)
	FST 101 Succeeding & Engaging at SIUE	Total Credits
Total Credits	17-19	18-19
Year 2	NUTR 205 Food Science (EH)	NUTR 210 Food and Culture (EH)
	RA 101 Reasoning and Argumentation	NUTR 250 Intro to Human Nutrition
	BIOL 240B Anatomy and Physiology II*	KIN 275 Intro to Careers in Nutrition and Exercise Sciences
	Breadth Fine and Performing Arts (BFPA)	Elective
	Elective	QR 101 Quantitative Reasoning
	Total Credits	Total Credits
Year 3	NUTR 319 Nutrition Biochemistry	NUTR 401 Nutrition Ed & Counseling
	NUTR 327 Lifecycle Nutrition	NUTR 355/KIN 355 Sports Nutrition and Supplements
	KIN 211 Medical Terminology	Breadth Info and Communication in Society (BICS)
	Breadth Humanities (BHUM)	Interdisciplinary Studies (IS)
	Elective	Elective
	Total Credits	Total Credits
	Year 4	NUTR 408 Food Service Management I
NUTR 409 Large Quantity Food Prep		NUTR 464 Senior Assignment in Nutrition
NUTR 411 Intro Medical Nutrition Therapy		KIN 412 Biology of CVD and Metabolic Disease
Experience Global Culture (EGC)		NUTR 421 Medical Nutrition Therapy II
Total Credits		Total Credits
		Total Hours

NOTES – *The University requires students earning a BS degree to complete at least eight courses in the sciences (life, physical or social), including, as part of those eight courses, two courses designated as labs (EL).

Transfer Students: To maximize your transfer experience, complete the **bold** course requirements pre-transfer and satisfy either the Illinois Articulation Initiative (IAI) General Ed Core or receive an AA, AS or AAT (early childhood, special ed or math) degree from an IAI community college. If minor requirements are shown, discuss careful course selection with the academic advising contact listed. Visit siue.edu/transfer to find course equivalency guides.

Graduation Requirements

Students must complete all specific program and university requirements which include:

- Complete all specific program requirements
- Complete all general education requirements
- Complete a minimum of 120 credit hours (at least 30 of which must be completed at SIUE and at least 60 of which must be completed at a regionally accredited four-year institution)
- A minimum cumulative GPA of 2.75
- Bachelor of Science requires completion of eight lecture courses in life, physical or social science, including two with labs (EL). Visit the transfer credit website to find course equivalency guides.
