Fiscal Year 2026 Annual Operating Budget

Executive Summary

Operating Budget Schedules

The operating budget includes a series of tables presented for Southern Illinois University, Carbondale, School of Medicine, Edwardsville, and Administration and University Wide System Offices that provides budgets by line item and major fund groups, revenues by source, general operationing budgets by responsibility centers, the operating budget by NACUBO functions and major fund groups, and tuition and fee waivers budgets. A copy of the FY26 appropriations bill is also included.

For expenditure purposes, revenues from state appropriated funds and the income fund (tuition revenue) are combined in the "general operating budgets" allocated to campus units.

The operating budget of the university does not include budgets associated with the university's eight related organizations, including the foundations, alumni associations, research parks, SIU Physicians & Surgeons, Inc., and the SIUE East St. Louis Charter School.

The budget also does not include an amount for state payments on behalf of SIU.

In table D, expenditures are listed by function within major revenue categories. The National Association of College and University Business Officers (NACUBO) created functional classifications for university expenditures in order to standardize the reporting across colleges and universities. The standard classifications are listed below:

Instruction – Expenditures for all activities that are part of the university's instruction program, including credit and noncredit courses.

Research – Expenditures for activities specifically organized to produce research whether funded by an external agency or separately budgeted by an organizational unit with SIU. This function also includes research centers.

Public service – Expenditures for activities established primarily to provide non-instructional services beneficial to individuals and groups external to the university. It includes community services and public broadcasting services.

Academic support – Expenditures to provide support services for the university's primary missions of instruction, research, and public service. It includes libraries, museums, academic administration, (I will add to this)

Student services – Expenditures for activities which have the primary purpose of contributing to the student's well-being and intellectual, cultural and social development outside the context of the formal instruction program. It includes student services such as admissions and records, financial aid administration, registrar, counseling, career services, and student health services.

Institutional support – Expenditures for central activities concerned with the management and long-range planning of the SIU system; fiscal operations including business and audit functions; human resources administration; safety and security functions; and development and alumni relations including fund raising.

Operation and maintenance of plant – Expenditures for the administration, supervision, operation, maintenance and protection of the university's physical plant, including building maintenance, utilities, landscape and grounds maintenance, and major repairs and renovations.

Scholarships and fellowships – Expenditures in the form of grants to students selected by the university or from other programs, including stipends and awards.

Auxiliary enterprises – Expenditures for operations which are not directly related to instruction, research, or public service units but which exit to furnish goods or services to students, faculty and staff, Examples include residence halls, food service, bookstores, student unions, student health centers, and student recreation facilities.

Southern Illinois University FY 2026 Tuition & Fee Waivers Budget

The University recognizes that waivers represent an institutional resource that should be included in the University's budget plan, which outlines the allocation of all institutional resources. A waiver represents an agreement between the University and the student to reduce or eliminate the tuition and/or fees that normally would be charged to the student. Waivers granted by State statute are also included. Waivers budget is not reflected in University budget totals.

APPENDIX

DESCRIPTION OF MAJOR FUND GROUPS

Appropriated Fund

State appropriated funds include General Revenue Funds and Other State Funds, both of which come from Illinois tax dollars.

Income Fund

Income Fund revenue includes tuition revenue, off-campus program revenue, interest earnings on income fund deposits, and certain miscellaneous fee revenue. Tuition revenue is a direct result of student enrollment, student residency, credit hours, and tuition rates. Off-campus program revenue is based on charges sufficient to cover all instructional and administrative costs of the programs. LAC guidelines require that certain fee revenue such as application fees, course-specific fees and graduation fees be deposited into the income fund.

Grants and Contracts

Grants and contracts include funds received from governmental entities and private foundations and corporations for the support of various research projects, instructional and training programs, public service activities, student financial aid, and other programs. The specific use of these funds is restricted by contractual agreement with the sponsoring agency. Generally, revenues will equal expenditures over the life of the grant or contract.

Indirect Cost Fund

Indirect cost funds are recovered as overhead allowances on grants and contracts. They are used to help cover a share of expenses for such items as operation and maintenance, library services, sponsored project administration and general administration.

Revenue Bond

Operations of revenue bond financed facilities are reported in this fund group. Revenue Bond enterprises are funded primarily from student fees, operating charges, and sales and services of various activities and include such facilities as residence halls, student centers, and student recreation centers.

Self-Supporting Activities

Self-Supporting Activities include a wide range of operations, which are directly related to Instructional, Research, or Public Service units or support the overall objectives of the University. They may be Self-Supporting in whole or in part. Revenue is generally derived through student fees or sales of services. Examples include Shryock Auditorium, textbook services and athletic fees.

- 1 year ending June 30, 2026.
- 2 Section 10. The sum of \$30,000, or so much thereof as may
- 3 be necessary, is appropriated from the State College and
- 4 University Trust Fund to the Board of Trustees of Illinois
- 5 State University for scholarship grant awards from the sale of
- 6 collegiate license plates.

7 ARTICLE 114
