About the Instructor
Name: Dr. Jason Murphy
Office Phone: (618) 650-3725
Email: jamurph@siue.edu
Virtual Office Hours: Mondays & Wednesdays, 1:30 - 2:30 p.m. Please email at least one hour ahead of time if you plan to attend. I will reply with a Zoom link. We can also schedule other times to meet on Zoom.

Welcome
Welcome to Foundations of Psychology! This course is fully asynchronous online.

The field of psychology encompasses numerous areas of study. Over the course of this semester, you will be exposed to a breadth of topics in psychological science including neuroscience, lifespan development, learning, memory, emotion, personality, psychological disorders, psychotherapy, and social psychology. If you are interested in learning more about these topics, many are discussed in-depth in upper-level psychology courses at SIUE.

Communicating with the instructor
We will use Blackboard as the primary communication hub for our class. Announcements, updates, grades, and other important course information will be posted to Blackboard. We will use Zoom for virtual office hours.

If your email requires a response, please include a formal greeting, your course and section number, specific question(s), and who you are (first and last name) when you email me. I will try my best to respond to emails that include this information within one business day.

About the Course

Prerequisite knowledge and credit hours
This course is worth 3 credit hours. There are no prerequisites.

Course goals and objectives
1. Examine the origins, evolution, and current state of the field of psychology.
2. Identify various subfields within the broader discipline of psychology.
3. Evaluate the role of research in psychology.
4. Articulate knowledge of the field of psychology in writing.
5. Demonstrate retention and understanding of key psychological concepts.

Course textbook

Undergraduate students can rent textbooks from SIUE. Please visit the Textbook Service website for more information. For off-campus classes, the textbook may be shipped to you. Look for the option “Off-Campus Classes have special instructions, click here for these.” Note: shipping time may take up to two weeks.
Other course materials
All additional materials will be posted on Blackboard.

Course requirements

Course activities/assessments overview

Exams
You will complete four exams consisting of multiple-choice questions on scheduled date ranges during the semester (see Course Schedule). You choose when to take the exam within the timeframe noted in the Course Schedule. Once the exam deadline has passed, the exam cannot be made up. Students have 75 minutes to complete the exam and may use their readings and notes; however, the exam is to be taken individually, without help from anyone else. Once started, the exam must be completed in one sitting (i.e., it cannot be paused and resumed at a later time). Each exam will cover all new material since the previous exam (or, for the first exam, since the beginning of the semester); in other words, exams are not cumulative. Exam questions focus on material presented during lecture, which may or may not be included in textbook readings.

Please ensure that you have a reliable computer and Internet access when you choose to begin the exam. **If an exam “reset” is required for any reason, please email me while the exam is open. If the exam is reset, your final grade will be reduced by 10 percent of the exam value** (i.e., 5 points will be subtracted from your final score). The reduction is because 1) a reset extends the time of a timed exam and 2) students are responsible for ensuring their computer and Internet access are reliable. I can’t guarantee I will see your email in time to reset an exam, so please do everything you can to ensure your computer and Internet access are reliable. **Email exam reset requests at least 24 hours before an exam is due; requests sent less than 24 hours before a deadline may not be seen in time for a reset. Once the exam deadline has passed, the exam cannot be made up or reset.**

Syllabus Quiz
The syllabus quiz asks questions about this syllabus and possibly other course documents on Blackboard. Until it is due, students have unlimited attempts to complete the quiz.

Term Paper
The term paper explores a subfield of psychology, chosen from a list provided by the instructor. Students **upload a Word document (.doc or .docx) or PDF version of their term paper through Blackboard.** Please do not submit a document in Apple Pages, Google Docs, or other formats. Links, other document formats (e.g., rtf, gdoc), and emailed papers will not be accepted and receive zero points. Documents that cannot be opened (e.g., that produce an error or corrupt document message) or are blank will receive zero points. **Students may only upload their document once** (and it may be graded shortly after it is uploaded), so they should carefully review their work before submitting. For help with saving work in Word document or PDF format or submitting a document through Blackboard, students should contact ITS by email or through their website for assistance. Late papers are not accepted for any reason. Please see Blackboard for additional information and an overview video about the term paper.

Web Quizzes
Web quizzes reinforce key topics from lecture and are similar to questions that may appear on exams. Deadlines are listed in the Course Schedule. Quizzes are not timed but must be submitted by deadlines. Students have one attempt to complete each quiz. Missed quizzes cannot be made up. Students may use any resources while completing quizzes.

Discussion Boards
Discussion boards help students engage with course content and each other. You are required to participate in four discussion forums. More about online discussions below.
Participation in Research or Research Article Quizzes by Psychology 111 Students

Research is the basis of knowledge in psychology and provides the content in all areas of the discipline. The Department of Psychology requires a minimum of 4 hours of research experience of each student enrolled in PSYC 111, unless the participant pool coordinator determines otherwise. This requirement may be completed by active participation in a department-approved study, by taking quizzes on select research articles, or a combination of these two in accord with guidelines set by the instructor. Each accepted quiz (must score 70% or above to be accepted) receives one hour of research credit, and active participation in ongoing studies receives credit according to the length of time spent in the study, which can vary from half an hour to multiple hours.

Details of the research participation will be provided early in your class. Attendance on the day research participation is described is mandatory and you will receive in-depth instructions on how to use the SONA website (https://siue.sona-systems.com) for research participation.

Failure to fully complete the research experience requirement results in a one-letter grade drop. For example, if a student earned a B in PSYC 111 at the end of the semester but failed to fulfill the research experience requirement, the student would receive a C. Students who make an appointment for research participation, as do the investigators conducting the study, make a commitment to be at the designated place at the designated time for their appointment. If an emergency arises to prevent participants from being able to be at the appointed time and place, they must notify the investigator no later than one hour prior to the study time. If students fail to come to the study on time or fail to cancel with sufficient notice, they will not receive credit for that study and be marked as a “no-show.” If you have more than two no-shows, you will no longer be able to register for experiments and will only have the option to complete the research article quizzes. Moreover, it is up to the investigator to decide whether and when such a participant can make an additional appointment for that particular study. Students should be aware that making a large number of appointments at the end of the semester (at the same time that hundreds of other students are trying to do so) can be difficult. It is best to fulfill the requirement well before the end of the semester.

Again, failure to meet the requirement at the end of the semester will lead to a reduction of one letter grade.

Those students who do not wish to participate in research may substitute research article quizzes for research participation. The article quizzes will give you some exposure to psychological research and acquaint you with some of the rich sources of materials where psychological studies are reported. During prescheduled times (see “Research Article Quizzes” section on Blackboard), you can read a pre-approved research article and take a quiz on said article. You must earn a 70% or greater to receive credit. Each quiz counts for 1 hour of research time. Please watch the Research Experience Overview Video in Week 1, Module 3 on Blackboard for more information.

Submitting work
All work will be submitted through Blackboard. Emailed assignments are not accepted.

Please use Firefox or Chrome on a desktop or laptop computer and visit https://bb.siue.edu to complete all Blackboard work. Do not use the downloadable Blackboard app, Safari browser, or a cell phone or tablet. These may improperly display or submit assignments. If you have tech questions, please ask ITS before beginning Blackboard work. Mising or erroneous submissions will be graded as-is, which could mean a student receives zero points for an assignment.

Online discussions
For each discussion forum, post a reply that meets the length requirement in the prompt. Students will not be able to view others’ posts until their own post is submitted.

Technology requirements
Technical requirements for students can be found in this ITS Knowledge Base article.

Technology capabilities
Students in an online course should be able to:
• Use a word processor, such as MS Word, to compose assignments and communicate with others in class
• Attach files to course areas
• Navigate websites and course materials
• Reach out to tech support staff when issues arise and troubleshoot to resolve problems

Course policies

The Psychology Department’s Policy on Plagiarism

Plagiarism includes presenting someone else’s words without quotation marks (even if you cite the source), presenting someone else’s ideas without citing that source, or presenting one’s own previous work as though it were new. When paraphrasing from another source or your own work, at the very least, the student should change the wording, sentence syntax, and order of ideas presented in the paper. Additionally, you should not submit a paper, or parts of a paper, written to fulfill the requirements of one class for the requirements in another class without prior approval of the current instructor and appropriate citation. Ideally, the student will integrate ideas from multiple sources while providing critical commentary on the topic in a way that clearly identifies whether words and ideas are those of the student or are from another source. Plagiarism is one type of academic misconduct described in SIUE’s Student Academic Code (http://www.siue.edu/policies/3c2.shtml). University policy states that “Normally a student who plagiarizes shall receive a grade of F in the course in which the act occurs. The offense shall also be reported to the Provost” (http://www.siue.edu/policies/1i6.shtml). The University policy discusses additional academic sanctions including suspension and expulsion from the University. To ensure that you understand how to avoid plagiarism, we encourage you to review the linked information on plagiarism.

Grading

A student’s grade is determined by the total number of points earned during the semester while completing the following course requirements:

1. Syllabus Quiz (10 points)
2. 4 Exams (50 points each, 200 points total)
3. Term Paper (40 points)
4. 13 Web Quizzes (5 points each, 65 points total)
5. 4 Discussion Forums (5 points each, 20 points total)

Grades are determined by the following point ranges; percentages are listed for reference. Grades are not rounded or curved.

Final course grade will be reduced by one letter if a student does not meet the 4 research hours requirement by participating in research studies and/or completing research article quizzes.

Students are encouraged to regularly check their grades in the My Grades section on Blackboard. Please bring any potential grading errors to the instructor’s attention within one week after a grade is posted. Grades will generally not be modified if more than one week has passed.

Feedback and grading timeline
Discussion board grades will be posted within one week of the discussion due date. Quiz and exam grades will be available upon their completion. The term paper may take longer than one week to grade. You can find your grades for assignments by clicking the My Grades link on the left menu of the Blackboard course. If feedback is provided, you can find it by clicking your score.

Late or Missed Assignments
All assignments are due by the dates and times listed in the Course Schedule, unless the instructor announces a modified deadline. Please submit all assignments through Blackboard. Emailed assignments are not accepted. No late work is accepted, no exceptions. Assignments that are late receive zero points.

Accommodations Statement
Students needing accommodations because of medical diagnosis or major life impairment will need to register with Accessible Campus Community and Equitable Student Support (Access) and complete an intake process. Access is located in the Student Success Center, Room 1203, myaccess@siue.edu, 618-650-3726. Students with accommodations should discuss these with the instructor at the beginning of the course.

Technical Support
Since this is an online course, you are expected to have reliable Internet access on a regular basis. It is your responsibility to address any computer problems that might occur. Such problems are not an excuse for delays in meeting expectations or for missing course deadlines.

Contact ITS at 618-650-5500 or at help@siue.edu with any technical concerns. You can also check the functionality of University systems, including Blackboard, at the ITS System Status page, or search the ITS Knowledge Base for various how-to and troubleshooting guides.

Tips for taking online assessments:
- Set up a wired (Ethernet) Internet connection on your computer
- Do not use a mobile device, such as a phone or tablet
- Read the instructions and directions carefully
- Be prepared to complete the assessment in the allotted time
