Instructor: David Fisher, Ph.D.
E-Mail: davfish@siue.edu
Zoom Link: https://siue.zoom.us/j/2489978006 (appointment required)
Office Hours: Tuesday & Thursday, 12:15PM - 1:15PM (please email if you plan to attend)

COURSE TEXT AND ADDITIONAL REQUIREMENTS

- All other course materials will be made available on Blackboard (see below).
- Full technical requirements for students can be found here: https://kb.siue.edu/104656.

COURSE DESCRIPTION AND OBJECTIVES

Welcome to Psychology of Employee Development! The purpose of this course is to provide students with a foundation in the theory, research, and practice of employee training and performance appraisal. With regard to employee training, topics will include (but are not necessarily limited to) training needs assessment, instructional design, and training evaluation. For performance appraisal, topics will include (but are not necessarily limited to) appraisal purpose, appraisal system design, and implementation.

Student Learning Outcomes—upon completion of the course students should be able to:

- Demonstrate an understanding of important principles and/or concepts related to employee training and performance appraisal.
- Articulate important steps and procedures involved in creating, delivering, and evaluating a training program.
- Describe important steps and procedures involved in designing, implementing, and ensuring fairness in an appraisal system.
- Convey information about the theory, research, and practice of employee training and performance appraisal in written and verbal form.

COURSE STRUCTURE AND EVALUATION

Class time will consist of lectures, discussion, activities, and assessments that will help you develop a better understanding of the topic of employee development, including training and appraisal. It is important that you complete the required readings before coming to class. Likewise, all assignments and coursework are due before class on the date indicated in this syllabus. No late assignments will be accepted. Unless otherwise noted, all assignments, exams, and coursework will be submitted electronically via Blackboard. Grades are based on:
• **Syllabus Check & Electronic Device Agreement (2 points combined).** During the first week of the semester, students will be required to complete a syllabus check assignment and sign an electronic device agreement. Failure to complete these two items will result in the student being dropped from the class.

• **Multiple Choice Question Creation x12 (3 points each week, 36 points combined).** For each week (excluding the first week, exam weeks, and the project presentation week), students will submit three multiple choice questions created based on the assigned readings for the given week. A document will be provided with further information.

• **Class Facilitations x2 (40 points each, 80 points combined).** Students will conduct two class facilitations throughout the semester, one focusing on employee training and the other on performance appraisal. This will involve the student giving a presentation and facilitating a 1 hour 15 minute session related to a training/appraisal sub-topic, with the purpose of helping the student and class gain a deeper understanding of the chosen sub-topic. A week prior to the facilitation date, students will be required to submit the chosen sub-topic and a reading list on which their presentation/facilitation will be based, per the course schedule below. A document will be provided with further information, along with assigned dates for facilitation presentations.

• **Research Proposal or Applied Project (50 points).** Students will have the option of choosing to complete either a research proposal or an applied project. For the research proposal, students would write an 8–12-page paper proposing a research study focusing on employee training or performance appraisal. For the applied project, students would write an 8–12-page technical report describing an applied project focusing on either an employee training system or performance appraisal system. **Students selecting the applied project option are responsible for finding and securing agreement from a client/organization, which then needs to be approved by the instructor.** Regardless of which option is chosen, students will be required to submit their chosen topic as well as various drafts prior to the final submission, per the course schedule below. A document will be provided with further information.

• **Paper / Project Presentation (20 points).** Toward the end of the semester, students will give a presentation that summarizes either their research proposal or applied project (see above) to the class. A document will be provided with further information.

• **Exams x2 (50 points each, 100 points combined).** Students will complete two exams throughout the semester, one focusing primarily on employee training and the other on performance appraisal. Each exam will be made available on Blackboard for a 24-hour period on the day of the scheduled exam, per the course schedule below.

• **Professionalism (12 points).** Students are expected to behave in a professional manner. This includes, among other things, attending class, coming to class on time, attentively listening to lectures, contributing to discussions, and being respectful of others' comments and contributions. This also includes not being distracted, operating a cell phone, or using your computer for non-class related purposes (for example, surfing the Web, checking email, using Facebook, etc.).

• **Extra Credit (3 points):** Students have the option of providing a 2–3-page summary of a “suggested reading” listed below. Depending on the quality of the summary, students can receive additional points toward their final grade.

CLASS POLICIES AND OTHER INFORMATION

Blackboard/Paperless Class

All course announcements, assignments, and other postings will be done through Blackboard. To the extent possible, all documents will be provided electronically, as opposed to being printed out. Likewise, all assignments should be submitted electronically, as opposed to printed out. Blackboard will also serve as your primary means of communicating with your fellow students and me. It is your responsibility to ensure that the e-mail account that you have listed with the University is a valid and working account so that we can communicate effectively. Otherwise, you will be responsible for the lack of communication. Additional information and resources can be found at https://www.siue.edu/its/bb/students/tutorials.shtml.

Respect for Intellectual Property and NO Recording

Faculty recordings of lectures and/or other course materials are meant to facilitate student learning and to help facilitate a student catching up who has missed class due to illness or quarantine. As such, students are reminded that the recording, as well as replicating or sharing of any course content and/or course materials without the express permission of the instructor of record, is not permitted, and may be considered a violation of the University’s Student Conduct Code (3C1), linked here: https://www.siue.edu/policies/3c1.shtml.

Changes to Syllabus and Class

The instructor reserves the right to make changes to this syllabus as currently presented, in order to accommodate the learning pace of students, and if such changes help achieve the learning objectives of this course. This includes the possibility of switching to online learning if circumstances make this necessary or prudent.

Emergency Situations

Under extreme circumstances, students will be allowed to submit assignments late without a penalty or reschedule an exam date. Such circumstances must be unforeseen, unavoidable, and of a serious nature (for example, car accidents, serious medical emergencies, deaths in the family, documented COVID diagnosis). In other words, printer jams, planned appointments, and similar excuses do not count. In all cases, written and verifiable documentation must be presented. I reserve final judgment with respect to whether a situation constitutes an extreme circumstance or not.

Academic Integrity/Plagiarism/Misconduct

This course adheres to the SIUE’s policies and procedures related to academic misconduct. Plagiarism and cheating will not be tolerated and may lead to failure on an assignment in the class, or dismissal from the University, per the SIUE academic dishonesty policy (http://www.siue.edu/policies/1i6.shtml). Students are responsible for complying with University policies about academic honesty as stated in the University’s Student Academic Conduct Code (http://www.siue.edu/policies/3c2.shtml). Students are responsible for being familiar with these policies and procedures. The use of artificial intelligence (AI) tools and applications (including ChatGPT, DALL-E, and others) to produce content for course assignments and assessments is a violation of SIUE’s academic policy and is prohibited. This course will utilize ‘Turn It In’ plagiarism and AI detection software (https://www.siue.edu/its/turnitin/).
Student Support and Accommodations

Students needing accommodations because of medical diagnosis, major life impairment, or other life circumstances will need to register with Accessible Campus Community & Equitable Student Support (ACCESS) and complete an intake process before accommodations will be given. Students who believe they have a diagnosis, but do not have documentation, should contact ACCESS for assistance and/or appropriate referral. The ACCESS office is located in the Student Success Center, Room 1203. You can also reach the office by emailing to myaccess@siue.edu or by calling 618-650-3726. Students who qualify for accommodations should inform the instructor as soon as possible to arrange for their needs and obtain support for the class. In addition, students have access to counseling services on campus (https://www.siue.edu/counseling/). You can make an appointment by calling 618-650-2842.

Diversity and Inclusion

SIUE is committed to respecting everyone’s dignity at all times. In order to learn, exchange ideas, and support one another, our virtual and physical classrooms must be places where students and teachers feel safe and supported. The Hub (https://www.siue.edu/csdi) is an excellent resource for students for support and community. Any person who believes they have experienced or witnessed discrimination or harassment can contact Ms. Jamie Ball, Director in the Office of Equal Opportunity, Access and Title IX Coordination at (618) 650-2333 or jball@siue.edu.

By providing your name, signature, and date below, you certify that you have read and understand all policies and information in this syllabus. If you have questions, please contact the instructor immediately.
