Course Description and Objectives: This course is designed to cover psychological and biological development of children from conception to puberty. Topics covered in the course focus on the following types of development: physical, motor, sensory, perceptual, cognitive, communication, emotional, behavioral, social, moral, gender, family, and the community. At the completion of this course students will:

- 1) understand of theories of child development,
- 2) understand genetics, prenatal development, birth, and newborns,
- 3) understand physical, sensory, and cognitive development in children,
- 4) understand communication, emotional development, and important relationships in children,
- 5) understand of the effect of gender on development,
- 6) understand of disorders common in childhood and evidence-based treatment,
- 7) enhance critical thinking skills and skepticism regarding the media and research,
- 8) enhance skills in using PsycINFO,
- 9) enhance professional writing skills.

Required Texts: *Child Development: From Infancy to Adolescence* (2nd Edition; 2020) by Levine & Munsch

Expectations

To ensure the best experience for all class members, students are expected to:

- *Come to class.* If you are hoping to do well in this, or any, course, regular attendance and active participation will always be the first step. The attendance policy is outlined below.
- *Come to class prepared and ready to participate.* Classes are much more interesting when students are able to draw on their own experiences to enrich the material covered by the instructor and when all readings are completed prior to entering class.
- *Come to class on time and with as little amount of disruption as possible.* Please keep all devices not being used for note-taking out of sight and turned off.
- *Be courteous and respectful of fellow students' time and comments.* This refers to the statement above, in regards to limiting class disruptions, as well as appreciating other students' examples or questions. The classroom should be a comfortable and safe environment that promotes class discussion. The subject matter of this class lends itself well to class discussions, which is extremely useful in creating a more comprehensive understanding of the theories/social issues/viewpoints of others. An atmosphere that encourages this is dependent upon all students being respectful of each other's views. If, for whatever reason, students experience discomfort, offense, or concerns, please contact me to discuss appropriate resolutions for these issues.
- *Be responsible for your own learning.* As college students you are entering adulthood, therefore keeping records of your own grades, being aware of the class assignments, and being proactive if you are falling behind (contacting the instructor to clarify confusing concepts prior to the exam, for example) is up to you. *If you are having difficulty with any aspects of the course, see me as soon as possible. Students can come to office hours, set up an appointment, or email me.*
- *Please print and read the syllabus!* Before asking the instructor a question regarding due dates or assignments make sure it is not already on the syllabus.
- *Turn assignments in on time.* No late work will be accepted, so plan accordingly. All class materials will be submitted to Blackboard.

To ensure the best experience for all class members, students can expect the instructor to:

- Be available to students to clarify or explain concepts further. See the office hours outlined above. Please do not email assignments, however emailed questions or concerns are welcome. Emails will not be answered if they do not contain the following:
 - A proper address (Mrs. Adams, Dear Mrs. Adams, Hello, Mrs. Adams),
 - Your name, class, and section
 - Professional language. Please, use full sentences, correct grammar, and appropriate language. Emails to your instructors should not look like text messages to your friends.
- Provide an enriching environment that stimulates critical thinking and thoughtful discussion.
- Return graded work in a timely manner and to be available to clarify grading policies if needed.

Extra Credit Opportunities

- In order to reward class attendance, throughout the semester there will be several random attendance checks that will take place during the first 3 minutes of class. Each student

present during these random checks will earn 2 extra credit points. In order to earn such points, students must arrive to class on time and remain in class for the entire period (as leaving early on such days will result in the loss of the 2 bonus points). Attendance taken during the first week of class will not be considered for extra credit.

- Attendance is further rewarded throughout the semester during in-class activities, which at times may be awarded bonus points.

Blackboard (Bb)

- All grades, assignments, abbreviated class notes, additional readings, and class announcements will be posted on Blackboard. Notes are located in folders in Coursework that corresponds with the Exam the material contributes to (Chpt 2 materials will be located in Exam 1 Materials, for example).
- Exams will also be completed on Bb, as discussed below. These exams will be located in Coursework.
- All assignments will have video explanations that will remain on Bb in Coursework throughout the semester.
- Chrome and Firefox are recommended browsers. Do not attempt to complete classwork on mobile devices or through the Blackboard mobile app.
- Please check this system, along with your SIUE email account, regularly.

Assignments and Final Grades

Assignments		Final Grades (points)
4 Exams (100 points each)	400 points	A: 90% or above
Child Investigation Paper	100 points	B: 80-89%
Review Questions (20 points each)	80 points	C: 70-79%
Syllabus Quiz	10 points	D: 60-69%
		F: below 59%
		Total points: 590

Exams- Four (4) exams will be given throughout the semester. Each exam will cover only the material since the last exam. As such, the final exam **is not cumulative**. Each exam will cover both lecture topics and information from the assigned readings, and will include 50-55 questions with any combination of multiple choice, true or false, or fill in the blank. Each exam will be available on Blackboard for completion for 48 hours (the day of the scheduled class and the following day). **Once an exam is opened by the student, the exam will auto-submit after 75 minutes.** Students are encouraged to prepare for the exam as if no resources (notes and textbook) are available, although these materials are allowed. Use of online resources, such as Google or other search engines, are not allowed.

-Tips for taking online assessments:

- Plan to complete Exams when an internet connection is typically stable
- Choose a time to complete the Exam when distractions are limited

- Do not use a mobile device, such as a phone or tablet
- Read the instructions and directions carefully
- Be prepared to complete the Exam in the allotted time

****Makeup exams** are only given in cases of emergency. Any makeup exam will be open on Monday at 8am through Tuesday at midnight of finals week. Only 1 makeup exam for the class will be allowed.

Child Development Investigation Paper- A focus of this course is on questioning common development theories and parenting tips or advice. Some of the most popular ideas about parenting or about how children develop have little to no research validity, while others are well-documented to be true and very helpful to parents and those working with children. For this paper students will investigate different questions in an attempt to answer these questions with a “yes” or “no.” Student topics are outlined below. Additional guidelines and an explanation for this assignment will be posted on Blackboard during week 2 or 3 of the course.

Review Questions-prior to each exam, students will complete 20 multiple choice or True/False review questions that correspond to the chapters being covered in class. Each question will be 1 point each. These, along with other resources, should be utilized as an additional way to prepare for exams. These will not be accepted late. Review questions will be completed on Blackboard.

Syllabus Quiz-To encourage students to read the syllabus in full, a quiz will be completed. This quiz can be found in Coursework on Blackboard. See the schedule below for the due date.

COVID-19 Pandemic Policies Related to Classroom Instruction (Spring 2022)

Potential for Changes in Course Schedule or Modality

As the COVID-19 pandemic continues, there remains a possibility that planned classroom activities will need to be adjusted. Depending on circumstances and following state-issued recommendations, potential changes include alterations to distancing requirements, course modality (e.g., transition from face-to-face to online, hybrid, or hy-flex, mask wearing, in-course activities, etc). These changes would be implemented to ensure the successful completion of the course while preserving health and safety. In these cases, students may be provided with an addendum to the class syllabus that will supersede the original version. If the course schedule or modifications significantly alter expectations, a new syllabus will be issued.

Health and Safety

The measures outlined below are required and any student who does not comply may be in violation of the *COVID-19 People-Focused Health and Safety Policy*, as well as the University’s *Student Code of Conduct*.

The full text of the *COVID-19 People-Focused Health and Safety Policy* can be found here:

<https://www.siue.edu/policies/Covid.shtml>

Classrooms, Labs, Studios, and Other Academic Spaces

Under current University policy, whether in the classroom, lab, studio, or other academic spaces, students (regardless of vaccination status) shall wear face coverings that fully cover the nose and mouth and practice physical distancing measures to the extent practicable based on the specific classroom capacity and pedagogy. Classroom furniture should not be rearranged, and furniture that has been taped off or covered should not be used.

Students who forget to wear a face covering will be reminded of their obligation to comply with SIUE's *COVID-19 People-Focused Health and Safety Policy* and temporarily asked to leave the class until they are able to conform to the policy. Students who forget or lose their face coverings may be able to obtain replacements from a friend, a faculty member, or a nearby departmental office. Face coverings are also available for purchase in the Cougar Store (MUC).

Students who refuse to wear a face covering will be asked to leave the classroom and referred to the Dean of Students for non-compliance with community health and safety protocols. Repeated non-compliance may result in disciplinary actions, including the student being administratively dropped from an on-ground/face-to-face course or courses without refund if no alternative course format is available.

If a student has a documented health condition which makes wearing a face covering medically intolerable, that student should contact ACCESS to explore options with the understanding that ACCESS will not grant accommodations which excuse the need for a face covering while on campus or in the classroom. ACCESS will work with qualifying individuals to find reasonable alternatives, whenever such solutions are available. Please call or contact the ACCESS Office via email to schedule an online appointment to discuss potential alternatives. ACCESS office (Student Success Center, Room 1203, 618-650-3726, and myaccess@siue.edu).

General Health Measures

At all times, students should engage in recommended health and safety measures, which include:

- Conducting a daily health assessment. If you have [COVID-19 symptoms](#), but not yet tested positive, have had COVID-19 close contact exposure, or are COVID-19 diagnosed as presumptive or confirmed positive, contact your health provider or SIUE Health Service at cougarcare@siue.edu or 618-650-2842. More information on reporting procedures is available [here](#).
- Frequent washing or disinfecting of hands.
- Adhere fully to the current face mask and physical distancing rules as articulated in policy: <https://www.siue.edu/about/announcements/coronavirus/safety-guidelines-support/face-mask-pick-up.shtml>
- If present, adhere to directional signs and traffic flow patterns in buildings and offices. In many spaces, doors for entering and exiting buildings are designated.

Academic Integrity

Students are reminded that the expectations and academic standards outlined in the Student Academic Code (3C2) apply to all courses, field experiences and educational experiences at the University, regardless of modality or location. The full text of the policy can be found here: <https://www.siu.edu/policies/3c2.shtml>.

Recordings of Class Content

Faculty recordings of lectures and/or other course materials are meant to facilitate student learning and to help facilitate a student catching up who has missed class due to illness or quarantine. As such, students are reminded that the recording, as well as replicating or sharing of any course content and/or course materials without the express permission of the instructor of record, is not permitted, and may be considered a violation of the University's Student Conduct Code (3C1), linked here: <https://www.siu.edu/policies/3c1.shtml>.

Potential for Changes in Course Schedule or Modality

As the COVID-19 pandemic continues, there remains a possibility that planned classroom activities will need to be adjusted. Depending on circumstances and following state-issued recommendations, potential changes include alterations to distancing requirements, course modality (e.g., transition from face-to-face to online, hybrid, or hy-flex, mask wearing, in-course activities, etc). These changes would be implemented to ensure the successful completion of the course while preserving health and safety. In these cases, students may be provided with an addendum to the class syllabus that will supersede the original version. If the course schedule or modifications significantly alter expectations, a new syllabus will be issued.

Additional Information

ACCESS Services

It is the policy and practice of the Southern Illinois University Edwardsville to create inclusive learning environments. If there are aspects of the instruction or design of this course that result in barriers to your inclusion or to accurate assessment of achievement—such as time-limited exams, inaccessible web content, or the use of non-captioned videos—please notify the instructor as soon as possible. Students are also encouraged to contact office for Accessible Campus Community and Equitable Student Support (ACCESS). The ACCESS office is located in the Student Success Center, Room 1270. You can also reach the office by e-mail at myaccess@siue.edu or by calling 618.650.3726. For more information on policies, procedures, or necessary forms, please visit the ACCESS website at www.siu.edu/access.

ACCESS, Student Success Center, 1270, Box 1611, 618-650-3726

Psychology Policy On Incomplete Grades, Pass-No Credit Option, & Withdrawal:

All withdrawals must be completed by the end of the 13th week of classes during fall and spring, and by a similarly late date (i.e., before 82% of class meetings have occurred) in any summer term. When students discontinue attending class and do not withdraw from a course they may receive the grade of UW (Unauthorized Withdrawal). The grade of UW will only be given when a student's grade based on the course requirements is an F. The grade of UW is calculated as an F in a student's grade average. The granting of a grade of I (Incomplete) is not automatic and is available only in cases when a student has completed most of the work required for a class but is prevented by a medical or similar emergency from completing a small portion of the work not later than the end of the following semester. An I must be approved by the instructor with appropriate documentation provided by the student. If an instructor agrees to give a student an I, the instructor will fill out a Memorandum of Incomplete Grade to be kept with the student's records. If the work is not completed by the time specified on the Memorandum, the student's grade will be changed from I to F.

Academic Honesty: I trust you will be honest in this course. *Cheating on exams, plagiarism on class assignments, and other forms of cheating will result in a grade of "F" in the course, a letter to the provost, probable disciplinary probation or expulsion, and other sanctions will be provided to the fullest possible extent.* Included below are descriptions of plagiarism as outlined by the Department of Psychology and the Undergraduate Catalog.

Plagiarism (PLEASE READ the Department of Psychology's Statement): *Plagiarism includes presenting someone else's words without quotation marks (even if you cite the source), presenting someone else's ideas without citing that source, or presenting one's own previous work as though it were new. When paraphrasing from another source or your own work, at the very least, the student should change the wording, sentence syntax, and order of ideas presented in the paper.* Additionally, you should not submit a paper, or parts of a paper, written to fulfill the requirements of one class for the requirements in another class without prior approval of the current instructor and appropriate citation. Ideally, the student will integrate ideas from multiple sources while providing critical commentary on the topic in a way that clearly identifies whether words and ideas are those of the student or are from another source. Plagiarism is one type of academic misconduct described in SIUE's Student Academic Code (<http://www.siue.edu/policies/3c2.shtml>). University policy states that "Normally a student who plagiarizes shall receive a grade of F in the course in which the act occurs. The offense shall also be reported to the Provost." (<http://www.siue.edu/policies/1i6.shtml>). The University policy discusses additional academic sanctions including suspension and expulsion from the University. To insure that you understand how to avoid plagiarism, we encourage you to review the information on plagiarism provided on the Department of Psychology web page at <http://www.siue.edu/education/psychology/plagiarism.shtml>.

The Undergraduate Catalog provides the following statement on **plagiarism**: “The University gives high priority to matters of academic ethics and abhors all types of cheating, including plagiarism. *Plagiarism is the act of representing the work of another as one’s own and may consist of copying, paraphrasing, or otherwise using written or oral work of another without proper acknowledgement of the source or presenting oral or written material prepared by another as one’s own.* Instructors may impose sanctions for academic cheating in accordance with the Student Academic Code. The minimum penalty for academic misconduct beyond failure for an assignment and/or for a course is disciplinary probation.”

Department of Psychology Statement on Writing: This following policy statement (approved on April 10, 2015) will apply to all undergraduate psychology courses at the 200-level and above. “As a student in this course, you will be expected to display university-level writing, which includes completing course assignments that meet the following basic writing criteria. Specifically, all written assignments completed for this course should include:

- clear transitions from sentence to sentence and idea to idea (e.g., paper flows well);
- verb tense consistency;
- clear and unambiguous sentences and ideas;
- writing that is free of typos, spelling errors, and major grammatical errors;
- properly formatted citations and references (if relevant).

This is by no means an exhaustive list of basic writing skills, but will give you an idea of what we are looking for in our papers. If you feel you need help with your writing, you are encouraged to seek assistance from the writing center on campus

(<http://www.siu.edu/is/writing>) or utilize one of the many online resources they have identified to help students (<http://www.siu.edu/is/writing/resources.shtml>). If your graded written assignments fail to meet the basic writing requirements listed above (and any others found to be appropriate by your instructor), the instructor will stop the grading process and return the paper to you (see below for the specific policy for this class)

Tentative Class Schedule

This schedule may change based on Covid-19 safety measures, class pace, and instructor discretion

Date	Topic	Details
1/11	Introduction to Course	Meet virtually or watch syllabus review video (found in Coursework) Zoom link: https://siue.zoom.us/j/97844269091
1/13	Themes and Theories of Child (Ch 1 and 2)	Meet virtually or watch lecture video (found in Exam 1 Materials folder in Coursework) Zoom link: https://siue.zoom.us/j/97844269091
1/18	Theories of Child	As of 1/6/22: Meet in classroom Science East 3126 **Details will be provided to the class via email and posted as an announcement on Bb if this changes
1/20	Genetics (Ch 3)	Syllabus Quiz due by midnight Find Quiz in Coursework on Bb
1/25	Genetics/Prenatal & Newborns (Chap 4)	
1/27	Prenatal & Newborns	
2/1	EXAM #1	Review Questions Due (Completed Online) 1/31 by 11:59pm EXAM #1 Exam will open at 8 am on 2/1 and remain open until 2/2 at midnight Find the exam in Exam 1 Folder in Coursework
