Welcome!

We are pleased to welcome in the summer months in our office! Excited summer campers take over the campus and we enjoy their enthusiasm for learning. Summer also brings our summer STEAM library tours and local libraries work with us to offer hands-on learning opportunities for their young patrons. For adults, there are many options for you to learn something new as well. If this is the time to start or finish your degree, SIUE is here for you with numerous options to attend fully online or in person to earn degrees and certificates. Certificate programs, such as Certified Recovery Specialist, provide short-term training options that can help you demonstrate your skills during an interview. Just for fun, a new Afro-American Dance Styles class, taught by Sarah Goins, will get you up and moving on Wednesday afternoons. If cooking is your passion, consider Indian Vegetarian Cooking or German Breads classes. We are here to serve our community and would love to hear from you. Contact us with your ideas for new classes and enjoy the summer season.

Wishing you a wonderful summer season,

EDUCARD

Do you want the opportunity to explore possibilities of professional growth or personal enrichment in an economical and flexible way?

If you answered “Yes,” we invite you to sit in on regular classes at SIUE through our Educard Program. Educard is a special community program that allows you to attend selected credit classes offered by SIUE. It provides an opportunity for you to sample the subjects that interest you most. Anyone who is not currently enrolled for credit in the University is eligible for Educard. High School students are eligible and may take up to three classes.

Which classes are approved for Educard participation?

For a full list of classes, please visit banner.siue.edu/ssb and click Class Schedule. Select the Fall 2023 term and search any subject you would like. Classes not offered through Educard are classes with a full enrollment, non-credit classes, travel study, distance education, classes in which a danger may exist, classes requiring prerequisites, and classes where added direct expense may be incurred by the University.

What is not included?

- You will not receive a grade as an Educard participant.
- No official records of your classwork or attendance will be kept; therefore, no transcript is available.
- Since you do not pay normal student welfare and activity fees, you may not participate in student services and activities supported by those fees.

What about textbooks?

Educard participant may borrow textbooks, as available, at no cost through Textbook Service. You may pick up your textbooks after the first week of classes, and you are required to return textbooks to Textbook Service at the end of the term.

What is the fee?

$60 per class

The Office of Online Services and Educational Outreach is committed to providing universally accessible services and opportunities throughout our programming. If you need assistance or an accommodation, please contact our office: 618-650-3210, outreach@siue.edu or by mail (Online Services and Educational Outreach, Box 1084, Edwardsville, IL 62026) upon registration and/or at least three days prior to the offering to allow us time to accommodate your needs.
Since its start in 2017, the SIUE Successful Communities Collaborative (SSCC) has partnered with nine different cities and villages in Madison and St. Clair counties. Over 800 SIUE students from approximately 25 disciplines have been engaged thus far with partners through community-identified projects that are embedded in their courses. Additionally, SSCC coordinates two special projects:

**Community-Oriented Digital Engagement Scholars (CODES)**

CODES introduces first-generation, Black, Latinx and/or Pell-eligible students to digital community engagement. CODES’ first cohort of scholars began in fall 2022. CODES Scholars work in small research teams that focus on seemingly unsolvable problems, such as climate change or poverty’s manifestations across rural and urban environments. The project is led by Jessica DeSpain, PhD, professor in the Department of English Language and Literature and co-director of the SIUE Interdisciplinary Research and Informatics (IRIS) Center, and Connie Frey Spurlock, PhD, associate professor in the Department of Sociology and director of SSCC. Visit siue.edu/codes for more information.

**Truth, Racial Healing and Transformation (TRHT) Campus Center**

The SIUE TRHT Campus Center seeks to prepare the next generation of leaders to confront racism and dismantle the belief in a hierarchy of human value. The integration of TRHT and SSCC results in more equitable access to high impact practices (HIPs) for SIUE students because community-identified needs are embedded into courses in which students are enrolled. This is important, because HIPs are recognized for their positive impact on retention and learning outcomes for students across many backgrounds. As community and campus stakeholders collaborate and achieve goals together, truths can be revealed, authentic relationships can be formed and racial equity can be advanced.

If your organization is interested in partnering with SSCC or TRHT, contact Connie Frey Spurlock at 618-650-2945 or cfrey@siue.edu.

**Unemployed? Underemployed?**

SIUE serves students through the Workforce Innovation Opportunity Act (WIOA) Program

SIUE works regularly with county and state employment and training agencies to help match eligible students with funding. Individuals who are unemployed, underemployed or experiencing financial hardship may be eligible for support to complete their educational programs. Students must be seeking a credential in a high-demand employment field, be within two years or less of completing their degree, and meet local workforce criteria to qualify.

If you are seeking employment in an in-demand field and are interested in learning more about funding opportunities that will help you complete an SIUE program, please contact us at outreach@siue.edu or reach out directly to your county provider:

- Madison County Employment and Training Department (Bond, Jersey and Calhoun Counties), 618-296-4301
- St. Clair County Intergovernmental Grants Department Workforce Development Group (St. Clair, Monroe, Randolph, Clinton and Washington Counties), 618-825-3259
