Mechanical Engineering
Graduate Student Exit Survey
(v. 2017)

All ME graduates are required to fill out the Graduate Student Exit Survey. The survey serves as part of the assessment plan that is intended to improve our graduate program. Your honest opinion is appreciated.

Indicate your concentration of study: **_____Design/Mechanics _____Dynamics/Control _____Mechatronics/Robotics _____Thermal/Fluid**

Please mark only one column for each row	**Excellent (4)**	**Good (3)**	**Average (2)**	**Poor (1)**	**Not Applicable**
Advising					
Initial advisement by the Graduate Program Director					
Advisement by your Major advisor					
Communication with the Graduate Program Director/Department					
Course Scheduling and Content					
Course Scheduling					
ME course content and rigor (taught by ME faculty or call staff)					
Non-ME engineering course content and rigor (taught by other departments)					
Math course content and rigor					
Math courses (6 hours) - content to prepare you to use advanced mathematics to solve engineering problems					
500-level ME courses (15 hours) - content to prepare you to use science and fundamentals of engineering to solve engineering problems					
400-level ME courses (up to 6 hours) – content to prepare you to use science and fundamentals of engineering to solve engineering problems					

	Excellent (4)	Good (3)	Average (2)	Poor (1)	Not Applicable
Research Experience - *after completing the program*					
What is your improvement in the ability to perform comprehensive literature review in your research area?					
What is your improvement in defining, formulating, and applying the knowledge of your research discipline?					
What is your proficiency in applying experimental, computational, or analytical methods to solve engineering problems?					
Communication Skills - *after completing the program*					
What is your improvement in technical, oral, and written communication?					
Ethics					
As the result of your research experience, what is your understanding of ethics in engineering disciplines?					

Graduate Information		
Please mark the appropriate column	**Yes**	**No**
Have you already completed a job interview?		
Have you already received a job offer?		
If **Yes** to the above question, is this a mechanical engineering related job?		
Do you plan to continue your education to obtain a PhD degree?		
If **Yes,** at which university?
