## Launching January 1, 2021

# COLLEGE ENGINEERING MENTORSHIP PROGRAM

#### **PROGRAM MISSION**

The Engineering Center's mission of the College Engineering Mentorship Program is to provide guidance for students to better understand engineering disciplines and what a career in engineering entails. This program will help students identify their talents and explore their place in the engineering community. The mentorship program will encourage practicing engineers to give back to the engineers of hte next generation

### STUDENT APPLICATIONS

Student applications can be found on at:

www.engineeringcenter.org/mentorship

#### CONTACT

Engineering Center of St. Louis 4359 Lindell Blvd., St. Louis, MO 63108 (314) 533-9333 gina@engineersclub.net

#### PROGRAM DISCIPLINES

Below are the four main disciplines available in the Mentorship Program. Although, we are not limited to these disciplines.

- Civil Engineering
- Mechanical Engineering
- Chemical Engineering
- Electrical Engineering

## Launching January 1, 2021

# COLLEGE ENGINEERING MENTORSHIP PROGRAM

## **PROGRAM PROCESS**

To begin the mentorship program you must:

- Be a Freshman or Sophomore in an engineering or engineering related program.
- Fill out a mentorship program application that you can find on the Engineering Center Website.
  - www.engineeringcenter.org/mentorship
- The Engineering Center will then find an engineering mentor that fits the student's interest.
- The engineering mentor and student will than coordinate a date to shadow and introduce you to their engineering discipline.
- The Engineering Center will reach out to the student once they
  finish with their mentorship to discuss their experience. If another
  mentorship is in the best interested of the student, the student
  can continue the mentorship program.

### **CENTER SCHOLARSHIPS**

Learn more about the Center Scholarship program at: www.engineeringcenter.org/scholarships

# ENGINEERS' CLUB MEMBERSHIP
