**Declaration of Major:** Students interested in any of the majors offered by the School of Engineering should seek advisement from the School of Engineering when they initially enroll in the University and should declare a major as soon as possible. Students admitted to programs offered by the School of Engineering shall have met University admission requirements, successfully completed any required academic development and high school deficiency courses, eligibility to enroll in MATH 125 – Pre-Calculus, and have a cumulative GPA of 2.0 or better in any completed University course work.

\*FST 101 – for first time freshmen only. Must be taken in the first semester.

<sup>1</sup>ENG 101 must be successfully completed within the First 30 Hours.

<sup>2</sup>Quantitative Reasoning (QR) 101 must be successfully completed within the First 60 Hours. MATH 150 successfully completed (with a grade of ‘C’ or better) will fulfill this requirement.

<sup>3</sup>ENG 102 must be successfully completed within the First 45 Hours.

<sup>4</sup>Reasoning & Argumentation (RA 101) must be successfully completed within the First 45 Hours.

<sup>5</sup>ACS 103 must be successfully completed within the First 30 Hours. ACS 103 can be used as a Foundations course, and will also fulfill the EUSC requirement. If ACS 101 is taken instead of ACS 103, the EUSC requirement will have to be met by another appropriate course.

<sup>6</sup>Interdisciplinary Studies (IS) Courses must be taken at the junior/senior level class standing. This requirement is not waived with completion of transfer associate degree or IAI-GECC. It is recommended that students choose a course to meet this general education requirement and Global Cultures (EGC). Selecting one of the following: IS 324, 326, 336, 340, 352, 353, 363, 375, 377, 400 or 401 will satisfy both the requirement of an IS course and the GLOBAL CULTURES (GC) requirements. In addition, IS 352 and 375 will fulfill the EGC, EUSC and IS requirements. If a course is not selected that meets two general education requirements, then a course from the list of GC courses must also be taken.

<sup>7</sup>Students may be able to complete the Health Experience (EH) as an approved project or activity; if so, an additional course is not needed. (See academic advisor for approved project or activity). In addition, \*BIOL 203 or \*BIOL 205 will fulfill a BLS and EH requirement. \*Prerequisite/s required courses.

#### <sup>a</sup> LABORATORY SCIENCE SEQUENCE

Laboratory Science Sequence I & II courses can be:

(a) PHYS 141 & PHYS 151L and PHYS 142 and PHYS 152L; (b) PHYS 151 & PHYS 151L and PHYS 152 and PHYS 152L; (c) CHEM 121a & 125a and CHEM 121b and 125b.

<sup>b</sup>One Math Elective (MATH 250, 321, or 423). MATH 321 or 423 completes a MATH minor.
