

Student Name	Academic Department	Project Title
Izabelle Murillo-Gonzalez	Psychology	Examining the Relationship between School Psychologists Attitudes, Behaviors, and Self-Efficacy Towards Transgender and Non-Binary Students
Maureen Russo	Art and Design	Disenfranchised Grief turned to Trauma, and the effects of Art therapy (Metalsmithing) within Community to treat mental wellness, specifically, menstruating people
Sarah Anobil Okyere	Business Administration	CARBON EMISSIONS AND FINANCIAL STABILITY: THE ROLE OF GOVERNANCE
Corbin Johannpeter	Sociology	The Social Construction of Substance Use Disorders
Sandhya Poudel	Applied Health	Intimate Partner Violence and Depression Among Sexual and Gender Minorities in Nepal: The Mediating Role of Perceived Social Support
James Kore Quaye	Civil Engineering	Determining the Accuracy of Geoelectrical Techniques for Locating Pipelines in Clayey Soil
Linnea Skillrud	Applied Health	Does a Brief 5 Minute Bout of Exercise Improve Glucose Response to an Oral Glucose Tolerance Test in Adults with Prediabetes and Diabetes?
Cheyenne Copling	Chemistry	Predictive Analytics Applied to Nutrient Concentrations and Chlorophyll in Otter Lake and Speciation of Algae geneses using Matrix-Assisted Laser Desorption Ionization to Build a Mass Spectra Database
Hadis Ghasemi	Chemistry	Exploring the Ca2+ Binding Domain of Dual Oxidase: A Characterization Study
Aaron McMullin	Art and Design	Wallpaper Collage for MFA Thesis Exhibition
Otite Precious Lucky	Environmental Sciences	Antimicrobial Resistance in Surface Water Pathogens Induced by Silver Nanoparticles
Srisha Devkota	Civil Engineering	Identifying a Threshold For the Detailed Inspection of Traffic Signal Mast Arm Welds.
Paige Looney	Psychology	New Age Drug Use: How Hopelessness, Loneliness, and Pessimism Increase Substance Use in Generation Z
Garima Shrestha	Civil Engineering	Red Light Driver Behavior
Harini Subbaiahgari	Chemistry	Emulsion formation with semiconducting polymers to encapsulate dyes in polymeric nanoparticles.
Makyla Flowers-Tolliver	Psychology	Is Cybervetting Worth It? Applicant Perceptions of Organizations
Farzana Elaf	Chemistry	Exploring Nitrile Glove Permeability: Enhancing Safety Instruction through Gravimetric and GC Analysis
Enoh Martha Francis	Geography	Assessing Microclimate Variability in Cities: A Methods Comparison Between Local Weather Stations and Satellites.
Kayla Sparks	Biological Sciences	Does age negatively impact Drosophila melanogaster's thermotolerance when exposed to extreme temperature?
Ugochukwu Udonna Okonkwo	Geography	Remote Sensing Analysis of Vegetation Cover, Phenological Changes, and Land Surface Temperature in the Mark Twain National Forest
