**1. What are your current 3 main areas of research?**

- Polarization image sensors
- Imaging systems for remote sensing
- Biomedical imaging applications

**2. What are the top 3 areas of expertise/tools you are looking for in a research collaborator?**

- Biomedical experience
- Knowledge of optics
- Mechanical systems experience

**3. What 3 skills/tools that you have access to, are you willing to share with a potential research collaborator?**

- Electronics expertise from IC design to full system integration
- Optical design and engineering experience
- Software development for systems (C/C++), numerical analysis (MATLAB/NumPy), computer vision (OpenCV), and scripting (Python)
