1. What are your current 3 main areas of research?
   - Improving nutrition, health behaviors, and weight management in periods of life transitions (i.e. college, post-partum)
   - Addressing need for nutrition-related care among minority populations
   - Using technology to provide social support for health behavior change

2. What are the top 3 areas of expertise/tools you are looking for in a research collaborator?
   - Experience working in underserved communities
   - Implementation of health-based community-based interventions
   - Development of technology (apps, algorithm implementation) to support health interventions

3. What 3 skills/tools that you have access to, are you willing to share with a potential research collaborator?
   - Qualitative Research skills (i.e. conducting focus groups (FG), analyzing FG data)
   - Nutrition-related skills (i.e. dietary analysis, nutrition education and counseling)
