

academic success

university housing

students who thrive academically strive to embrace the 4-3-2-1 formula for success: graduate in four (4) years; maintain at least a 3.0 (3) grade point average; spend at least two (2) hours of prep time for every credit hour enrolled; and engage in one (1) campus or civic activity.

of residents have improved time management skills as a result of living on-campus.

nearly 9 out of 10 on-campus residents attend class regularly.

of on-campus residents study on a regular schedule.

80% of residents report living on-campus has enhanced their learning experience to some degree.

on-campus residents who have interacted with a faculty member in their housing community.
