Persistence of New Freshman Cohorts at the Undergraduate and Doctor of Professional Practice (PharmD) levels

Entering Fall Terms 2010-2019

SIUE has a number of first-time, full-time Freshmen who earn a Pharm.D. degree without earning a Baccalaureate degree. These students are not reported in our official Baccalaureate graduation rates but are presented in the table below. This table supplements the statistics in our Student-Right-to-Know persistence tables by including both Undergraduate and Pharmacy retention and graduation. Columns comparing Undergraduate-only graduation and retention rates starting at Year 6 (150%) are included.

NOTES: This study is a modified version of the Persistence of New Freshman Cohorts found in the Fact Book (pp.48 - 49 in the 2021 Edition), which combines both Undergraduate and Pharmacy retention and graduation rates.

N' indicates the number of first-time, full-time freshmen who matriculated in the summer or fall and were enrolled in the fall term (IPEDS GRS cohorts), less IPEDS-allowed exclusions .

Bold 'N' indicates change was made per IPEDS-allowed exclusions.

Enrollment in a year is determined at fall census, the statistics in this table include both Undergraduate and Pharmacy enrollments.

Graduation is based on that fall through the next summer (IPEDS GRS definition), and includes students who earned Baccalaureate degrees or whose first-earned degree was a PharmD..

Sum' indicates the cohort persistence rate, the percent of students who graduated by the end of the attendance year plus those who were still enrolled during the fall of that year.
