

Graduation and Retention Rates by Program
School of Business Undergraduate Programs
2023

Prepared by The Office of Institutional Research and Studies
Summer 2023

Study Methods

The study population consists of any undergraduate student who declared a major for the first time, beginning with Academic Year 2007-08. Students of any class level, including those working toward a second baccalaureate degree, were included. Students were assigned into program cohorts based on the academic year in which they declared their major. The data set utilized for the study includes elements such as student level, earned degree(s), admission type, enrollment terms, and earned credit hours, both institutional and transfer. This data set was developed with the assistance of SIUE's department of Information Technology Services. The study follows students in program cohorts for academic years 2007-08 through 2020-21. Students were tracked within their cohorts to determine the program graduation and retention rates at year 2, year 4 and year 6, **from the academic year of major declaration**. Within each program cohort, students were further categorized into native or transfer groups based on their admission types, or when admission types were ambiguous, on the existence of transfer credit when entering the University. Graduation rates displayed are cumulative, i.e. the rate for Year 6 includes students counted for the Year 4 and Year 2 rates. In 2018, the SIUE Graduation rate at Year 6 was added to the report. This rate includes students in the program graduation rate, plus students who changed majors and were awarded an SIUE undergraduate degree in a different program. Retention rates are based on retention in the year displayed only, and students included in the graduation rate are not included in the retention rate. The credit hours required to graduate for each program are from the Undergraduate catalog.

NOTE: Programming changes or code corrections in the Banner student information system may result in small headcount differences from previous studies.

Credit hours required to graduate in program:

120

NOTES:

Cohorts are based on the academic year in which students declare their major, and can include students of any class level.
 Completion years are through Summer of the time period indicated, for instance students in cohort year 2007-08 are followed through Summer 2009 to determine the Year 2 graduation rate.
 Students are considered retained if they were enrolled in any one of the Summer, Fall, or Spring terms in the year displayed, and are not included in the graduation rate for that year.
 Credit hours include ALL earned hours: SIUE earned hours (including Academic Development course hours), and accepted transfer credit hours.

Credit hours required to graduate in program:

120

NOTES:

Cohorts are based on the academic year in which students declare their major, and can include students of any class level.
Completion years are through Summer of the time period indicated, for instance students in cohort year 2007-08 are followed through Summer 2009 to determine the Year 2 graduation rate.
Students are considered retained if they were enrolled in any one of the Summer, Fall, or Spring terms in the year displayed, and are not included in the graduation rate for that year.
Credit hours include ALL earned hours: SIUE earned hours (including Academic Development course hours), and accepted transfer credit hours.

Southern Illinois University Edwardsville
School of Business - Persistence by Major Program through Summer 2022
Level: Undergraduate

Department: Business Economics and Finance
B.A. and B.S. in Economics (ECON)
