

Teaching and Learning Continuity Panel Discussion – Assessment Techniques 4/22/2020

Q & A

Q: Do you post examples of completed major projects in case students are unsure of how to approach a given assignment? ... Just curious, advantages/disadvantages?

A: live answered

Q: Any experience with embedding assessment questions within recorded videos? Is it worth the time investment?

A: live answered

Q: Is there something, other than Respondus, that can be used? Also, for people who are not teaching online: what is Respondus?

A: Respondus has a test authoring tool, a LockDown Browser, and a Monitor feature. This is all licensed through the University. There are not other tools for this with the exception of Monitor. We have Proctor U available, but this is only available depending on the test situation.

- 12:47:07 From Jingyang Fan to All panelists : One of the limitations with Respondus is that the lockdown browser requires a constant internet connection. Some of our students don't have that.
- 12:47:35 From Jingyang Fan to All panelists : Also they may have frequent interruptions from their kids/family members and it would be flagged by the AI proctor.
