12:28:32 From Kelly Barry : these strategies work for synchronous but not asynchronous

12:30:22 From Wayne Nelson to All panelists : You're right, Kelly. This session is focused on synchronous teaching but things would certainly need to change for asynchronous

12:32:31 From Laura Million : From Wayne, You're right, Kelly. This session is focused on synchronous teaching but things would certainly need to change for asynchronous

12:33:40 From Kelly Barry : Yes. They mentioned asynchronous and I was hoping they'd mention some as well.. it's all good!

12:34:25 From Laura Million : TechSmith Relay: https://bb.siue.edu/bbcswebdav/xid-33794527_1

12:34:45 From Sorin Nastasia to All panelists : So, you need to have your YouTube account, right?

12:35:35 From Laura Million : Yes, Sorin you would have to have a YouTube account and create a channel so the videos are seen only by your students and not the public.

12:35:47 From Faith Liebl to All panelists : They may have touched on more asynchronous topics last week, Kelly. I haven't watched that one yet. I can send you a link if you want to check it out.

12:35:53 From Sorin Nastasia to All panelists : Can ITS still embed videos recorded by us directly in the BB shell of a course?

12:36:34 From Laura Million : Sorin, we now use TechSmith Relay. Everyone at SIUE has access including your student. This way you control the storage of your own videos: TechSmith Relay: https://bb.siue.edu/bbcswebdav/xid-33794527_1

12:36:46 From Sorin Nastasia to All panelists : Can you give me an idea on how big would an mp4 file be after recording one hour?

12:37:53 From Laura Million : Sorin, depending on the ratio/size of your video, it can be up to several gigabytes.

12:38:28 From Sorin Nastasia to All panelists : Then can they be compressed with some program?

12:38:49 From Laura Million : Relay allows 2GB upload per file, but there is unlimited storage in Relay

12:38:51 From Sorin Nastasia to All panelists : Something like HandBreak?

12:38:51 From Laura Wolff to All panelists : I'm unfamiliar with poll everywhere or cahoot? Can you say more about how we get them, whether they are licensed, cost, etc...??

12:40:43 From Laura Million : Laura, Kahoot is a third party product so we can't really help with use and support. Kahoot: <https://kahoot.com/>
Poll Everywhere is available through SIUE. Here are some of the Knowledgebase articles on Poll Everywhere. : <https://kb.siue.edu/search.php?q=poll+everywhere>

12:40:44 From Wayne Nelson : Yes, Sorin - Handbrake is free and does a good job of compressing before uploading. Relay recommends mp4 format

12:52:55 From Sorin Nastasia to All panelists : For just talking and being able to share docs with a class, does Skype work?

12:54:08 From Laura Million : Sorin, You can share docs with students on Zoom also up to 100 people. All faculty now have the licensed account so you can record more than 40 minutes
