

Apply Question Type

Warning: If you've already begun collecting responses, changing your question type could result in the loss of collected data.

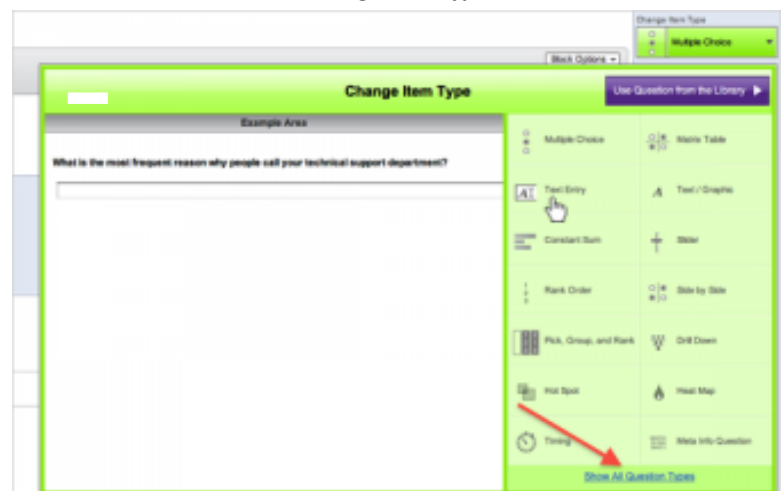

- Click on the question you would like to change.
- Click on the the green **Change Item Type** box in the question menu bar to the right of the selected question.

Qualtrics Edit Survey – Question Type

- A list of question types will be shown to you in the **Change Item Types** drop-down. Select a question type or click on **Show All Question Types** to see all of the question type variations.

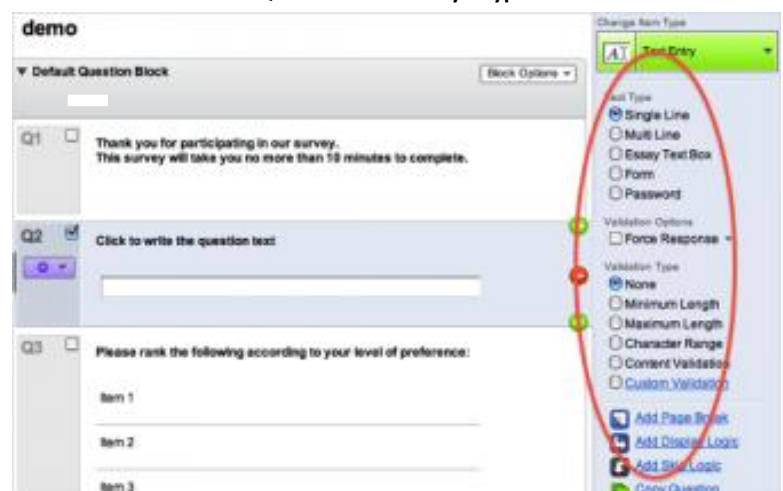

Change Item Type

- After selecting the question type, use the question options bar to the right to customize the question.

- **Show All Question Types** is available at the bottom of the **Question Types** menu and displays the variations of each question type available.

Qualtrics Edit Survey - Types

Additional Resources

There are many question types available in the Research Suite. These include Multiple Choice, Text Entry, Matrix Table and Constant Sum, to name a few. See the [Question Types Guide](#) to learn more.
