

The Social Media distribution page makes it easy to post your survey to your favorite social media websites, such as Facebook and Twitter.

## To post your survey:

1. In the **Distribute Survey** tab, click **Social Media** on the gray navigation bar.

2. Click on your preferred social media platform.

3. Enter your preferred **HTML Title** for your survey, or leave the default title.
4. Optionally, add a **Meta Description** for your post. This description is used by some search engines to catalogue your survey and make it available in public searches.

5. Click **Save and Continue**.

6. Your selected social media platform will open in a new window with further instructions on how to post your survey. Be sure your pop-up blocker is disabled.

## Available Social Media Platforms

Twitter  
Facebook  
LinkedIn  
Blogger  
Buzz  
Digg  
StumbleUpon  
Redditt  
Delicious  
MySpace  
Orkut

## More Information

### [QTips](#)

- The last option on this page is the QR Code for your survey. When a person takes a picture of this code with their smartphone, they will be directed to your survey. This is a convenient distribution option for magazines, billboards, and other print media.
