

Graduate Senator Lambert

As one of the Graduate Senators, I am focusing my initiatives in this role around ensuring graduate students have access to equitable and inclusive resources on campus. During my first year as a graduate student in the College Student Personnel Administration (CSPA) program, it came to my attention how isolated and disconnected graduate students feel from actual campus and its activities, resources, and services.

During my time as their representative I want to address the following initiatives:

1. Assess graduate students' and graduate programs' usage of resources of available such as Textbook Rental, Writing Workshops, Graduate Assistantships, and Professional Development Travel Grant.
2. Ensure all graduate students have access services that are equitable to their experiences that include but are not limited to: Textbook Services, Parking Services, Health and Counseling Services.
3. Create space for graduate students at campus events and activities and establish a norm of their attendance.

Graduate Senator Gilles

As a Graduate Senator, my primary goal is to facilitate a safe return to campus life for graduate students. I am also working to better centralize research opportunities and grants received by professors for graduate students. Another directive of mine is to regularly meet with graduate school faculty including the Dean to better communicate the needs of graduate students and implement new policies and objectives at the top level. Finally, my work in the Graduate Committee on Assessment will help to improve graduate programs by providing direct feedback and ensuring quality programs which help both students and faculty.
