

The Banking Industry

Why A Career In Banking?

- **Competitive salaries and excellent benefits**
- **Wide range of jobs and experiences in a thriving industry**
- **Numerous opportunities for advancement for ambitious professionals**
- **Continuing education and community service is highly encouraged**
- **Excellent working conditions and hours**

Whatever your talents, interests and educational background, there is a career in banking for you. While you may be most familiar with the tellers and customer service representatives at your own financial institution, there are many other employees who work in key areas of a bank.

Bank Administration/Accounting handles the bank's internal operations, sets policies and provide oversight

Consumer Banking delivers financial services to individual customers

Commercial Banking delivers financial services to businesses, churches and other organizations

Compliance provides strategic direction, ensures bank abides by industry laws and regulations

Human Resources manages employee placement, salaries, benefits and training

Operations/Accounting provides record keeping, bookkeeping and financial analysis

Technology/Information Systems/Security ensures availability of information, maintains computer systems and software, and protects data

Public Relations/Marketing promotes the bank's products and services, coordinates advertising, and improves relationships with the community and media

Trust and Investment Banking manages money or property for others
