Parking Information: Visitors may park in Lot B or metered portions of other lots.

The University has a network of 77 emergency phones on the SIUE Edwardsville Campus. Phones are located along walkways and in parking lots. Each phone has two buttons labeled “Info” and “Press for Help.” The “Press for Help” button is used for emergency calls and activates a strobe light located within the unit. The “Info” button is for such instances as flat tires, dead batteries, etc. Both buttons go directly to the University Police who are able to identify the location of the caller. Throughout this website, you will notice links identifying the location of these phones. Become familiar with these locations and be sure to use the phones if you need them.
