

## SIUE Launches Flowbird App For Parking By Cell Phone

July 15, 2020

### The *Whoosh!* app is changing to the Flowbird app

Edwardsville, IL – SIUE Parking Services has announced that its mobile parking payment app, *Whoosh!*, is changing to the *Flowbird app*. The *Flowbird app* provides the same convenient benefits like time expiration notification and remote time extension, along with additional new features such as a more intuitive user interface and Find My Car function. When users download the *Flowbird app*, they can use their *Whoosh!* user name and password to login, and they will not have to re-enter their credit card information.

The *Flowbird app* is available now for download on the App Store and Google Play Store. The app can be used at any campus parking location where you see a *Flowbird app* sign or sticker, on or near, one of the parking pay stations or parking meters. Payments can be made, and accounts can be managed, through the app or on the *Flowbird* website – [www.flowbirdapp.com](http://www.flowbirdapp.com).

Questions about the new app or any other parking related item on campus can be directed to the University's Parking Services department – (618) 650-3680.
