**Example:**

Activity:

Attended: Collecting Early Student Feedback to Improve Teaching

Date: Tuesday, September 17

Location: SIUE Center for Faculty Development and Innovation

Reflective Narrative:

This developmental activity motivated me to use a very brief (K.I.S.S.-- Keep it short and simple) survey in my classes to collect early feedback. This communicates my interest and motivation to my students early in the semester. My survey questions are designed to encourage them to also think about their own role and responsibilities in the learning process. This was a positive experience that seemed to impact student attendance and learning. I will certainly collect early feedback again!
