

Application For Reclassification Of Residency

A student's residency status affects several considerations, including tuition and financial assistance. The Office of Admissions Review and Processing determines residency status from evidence furnished on the application for admission to the University. If such evidence is not sufficient or if records establish that the student does not meet the requirements for resident status, the non-resident status is assigned.

This application packet is available to Graduate and International students currently attending SIUE as non-residents who have now satisfied the residency requirements established by the University and wish to be considered for reclassification. Students may obtain this packet in the Service Center, Rendleman Hall 1309 (618-650-2080). The forms and instructions are also available on the Registrar's web site at www.siu.edu/registrar.

Beginning Fall 2017, all domestic undergraduate students will be assessed tuition at the rate equivalent to in-state tuition. International students on an F-1 Visa cannot be assessed in-state tuition.

In order to be considered for reclassification of residency, please follow the instructions listed below:

1. Read the residency policy statement on page 3 thoroughly.
2. Complete the Application for Reclassification of Residency form, including signature and date on Page 2.
3. Provide the appropriate documentation indicated on the application.
4. Return your application and supporting documentation to the Service Center, Rendleman Hall 1309 and have it reviewed by the Manager.
5. Deadline for submission of this application is Monday of the 7th week of the semester in which you are requesting residency. Applications received after the deadline will be considered for the following term.

Definitions and Conditions

Adults, to be considered residents for purposes of tuition, must have been bona fide residents of the state of Illinois for a period of at least six consecutive months immediately preceding the beginning of any term at the University and must continue to maintain a bona fide residence in the state. Adult students who have a parent or both parents maintaining bona fide residence in the state and who reside in the parental home or elsewhere in the state are considered resident students.

Minors are considered to be persons under eighteen years of age. The residence of minors shall be considered to be and to change with that of the parent (s) or legal or natural guardian (s). Parents or legal or natural guardians will not be considered residents of the state unless they maintain a bona fide and permanent place of abode within the state.

If minors are emancipated, are completely self-supporting, and actually reside in the state, those individuals shall be considered residents even though the parents or guardians may reside outside the state. Marriage or active military service shall be regarded as effecting the emancipation of minors for the purpose of this regulation.

The term **bona fide residence** refers to the true, fixed, and permanent home and place of habitation to which individuals intend to return after a temporary absence. Evidence used to determine bona fide residence includes such items as voter registration, place of filing tax returns, proof of property ownership or year-around residence, driver's license, automobile registration, or place of employment.

Nonresident students married to residents of the state may be classified as residents while residing in the state. The spouses though whom students claim residence must demonstrate resident status in compliance with the requirements applicable to all students seeking resident status.

Students who are not citizens of the United States of America, to be considered residents for tuition purposes, must either be married to residents or must have permanent resident status with the United States Immigration and Naturalization Service, and must also meet and comply with all other applicable regulations to establish resident status. Students considered residents for tuition purposes may need to meet additional criteria in order to be eligible for federal student financial assistance.

Persons actively serving in one of the armed forces of the United States, stationed and present in the state in connection with that service, and submitting evidence of such service and station, shall be treated as residents while stationed and present in Illinois. If the spouses or dependent children of such members of the armed forces also live in the state, similar treatment shall be granted to them.

Persons actively serving outside the state in one of the armed forces of the United States are considered residents only on the basis of having been residents of the state at the time of entry into military service. Those separated from active military service are considered residents of Illinois immediately upon separation on the basis of (1) having been residents of the state at the time of entry into military service, or (2) having been treated as residents while in the military by attending school at the University while stationed within the state, or (3) having resided within the state for a period of six months after separation.

Persons incarcerated in a state or federal place of detention within the state of Illinois will be treated as residents for tuition assessment purposes while remaining in that place of detention. If bona fide residence is established in Illinois upon release from detention, the duration of residence shall be deemed to include the prior period of detention.

The spouses and dependent children of all employees on appointment with the University are considered resident students for purposes of tuition assessment during the term of such appointment.

Students may have their residency status reclassified on the basis of additional or changed information by filing a written request for review with the Office of the Registrar. The written request for review must be filed within 30 school days from the day on which classes begin for the term for which a residency change is requested.

A student seeking reclassification from non-resident to resident status is liable for the tuition and fees assessed but, if granted, the change of residency and accompanying tuition change shall apply for the term in which reclassification occurs. In the case of a student classified as a resident who is reclassified as a non-resident, the change to non-resident status and adjustment of tuition shall apply for the term following the reclassification. If the University has classified a student as a resident on the basis of false or falsified documents furnished by the student, the reclassification to non-resident status shall be retroactive to the first term during which residence status was based on these incorrect documents. The student also may be subject to sanctions under the Student Conduct and Student Grievance guidelines.

SIUE has adopted the optional residency status tuition policy for graduate students who are Missouri residents. Missouri residents are assessed tuition at a rate equal to in-state tuition. Effective for graduate students who entered SIUE fall 2014 or later and reside in Iowa, Indiana, Kentucky, Tennessee, Wisconsin or Arkansas receive tuition rates equivalent to the in-state rate. This policy does not apply to students of the School of Dental Medicine.

Appeal of Residency Review Decisions

A student who is dissatisfied with the ruling in response to a written request for review of his/her residency status may appeal the ruling to the Office of the Vice Chancellor for Student Affairs by filing a written request with that office within 20 days of the notice of the first ruling.
