

DISCUSSION: Relationship -1) Lesson to Unit AND 2) Importance of Lesson to Daily Life

Problem solving is an important life skill

Problem solving contributes to successful daily living

Self- Test Questions (Evaluation):

1. Did I identify the problems?
2. Did I brainstorm solutions?
3. Did I evaluate solutions?
4. Did I make a decision which solution is best?
5. Did I implement solution?
6. Did I evaluate success/failure?

Tasks/Strategies:

- Apply problem solving to what student knows (cooking, building, etc.) working through examples
- Role play problem solving through scenarios
- After practicing with real life apply to math, English, or science problem
