

Lewis and Clark Community College
Associate of Fine Arts
Art Studio

Completion of an Associate in Arts or Science degree at Lewis and Clark Community College fulfills SIUE’s general education requirements with the exception of an Interdisciplinary Studies course that all students must take during their junior or senior year at SIUE.

This “Transfer Program Guide” is an **example** of proposed curriculum for students to use while completing their associate’s degree. Reading, writing, and math placement could alter the course sequencing and transfer date. Therefore, students should begin sequencing their reading/writing (if applicable) and math & science courses during the first semester, paying particular attention to prerequisites. Students have the option of taking summer classes to lessen fall and spring course loads.

It is highly recommended that students meet with a Lewis and Clark advisor; for additional information please contact the SIUE coordinator for advising and partnership programs in Haskell Hall Rm. B07. Please see “**Important Student Notes**” located on page two of this transfer guide.

Requirements for Students Seeking Professional Educator Licensure

Admission to a teacher education program is a joint decision by the academic discipline in the College of Arts and Sciences and the School of Education, Health and Human Behavior (SEHHB). Therefore, it is essential that any student desiring teacher licensure meet with an advisor in the SEHHB Student Services for information about admission requirements to the teacher education program as soon as they know they would like to pursue this option. Scheduling required courses involves early and frequent coordination between the student, College of Arts and Sciences advisor, department faculty mentor, and SEHHB advisor. An overall GPA of 2.5 is required for admission to the teacher licensure program. CIED 100 is an introductory course that is open to all students interested in pursuing the Professional Educator License.

Students seeking Professional Educator Licensure (PEL) must meet specific general education and professional education requirements, and must pass state and licensure tests prior to, during their program, and in order to gain the PEL. State requirements change, so the latest details about these requirements can be found in the [SEHHB section of the undergraduate academic catalog](#), or by making an appointment with an SEHHB advisor.
