Are you willing to work with students from outside of your discipline? If yes, which other disciplines?
- No

How many hours per week will your student(s) be required to work in this position?
(Minimum is 6 hours per week; typical is 9)
- 8-9 hours

Will it be possible for your student(s) to earn course credit?
- No
**Location of research/creative activities:**

- Mostly Alumni hall/on campus or zoom

**Brief description of the nature of the research/creative activity?**

This semester the URCA student has helped in the IRB process related to a Grant-associated project related to clinical partner perceptions of new grad professional readiness. She has also helped in designing Qualtrics surveys and with distribution related to surveys. In the Spring she can help analyze some of the data, prepare a poster for presentation, and assist in manuscript writing.

In addition the URCA student has continued in assistance on an arm of the grant which includes designing an interprofessional simulation experience related to the Social Determinants of Health. We also will continue in the design and planning of the next element of the project related to data collection regarding the interprofessional simulation experience itself.

**Brief description of student responsibilities?**

Literature searches utilizing several databases and completion of a matrix that gives a summary of the relevant information. The URCA will become familiar with IRB and development of a study protocol. The URCA will assist in study design and survey development and distribution (utilization of Qualtrics). The URCA will also assist in data collection. Students will also assist in entering data into Excel and/or SPSS. They will be mentored in the utilization of SPSS software to perform some data analysis. URCA student will design and present a poster related to findings and assist with manuscript writing.

**URCA Assistant positions are designed to provide students with research or creative activities experience. As such, there should be measurable, appropriate outcome goals.**

**What exactly should your student(s) have learned by the end of this experience?**

- Literature searching utilizing databases
- Utilization of a reference management system (Zotero).
- How to use Qualtrics to build and edit surveys.
- Utilization of SPSS for data analysis
- Building and presenting a poster for presentation.
- Assisting in parts of manuscript writing
Requirements of Students

If the position(s) require students to be available at certain times each week (as opposed to them being able to set their own hours) please indicate all required days and times:

- Dates and times each week are flexible and can be worked out with the student's schedule.

If the location of the research/creative activities involves off campus work, must students provide their own transportation?

- No off campus work required.

Must students have taken any prerequisite classes? Please list classes and preferred grades:

- No prerequisites required.

Other requirements or notes to applicants:

- N/A
