

# Erik Verduin

25 South Cherry Hills Unit E, Edwardsville, IL 62025  
everduin94@gmail.com, 217-416-1706 (mobile)

## OBJECTIVE

Obtain a fulltime position at a progressive firm where my talents and skills in software application development can be leveraged for productivity improvements or efficiencies in process performance. The ideal position will allow ingenuity and outside-of-the-box thinking for logical approaches to problem solving while engaging and challenging my technical skill sets and programming abilities. This position will provide growth opportunities where my technical horizon can be expanded to meet the challenges of the company's competitive marketplace and my contributions will be valued and appreciated.

## EDUCATION

Southern Illinois University – Edwardsville, IL (SIUE)	Graduation in July 2016
• Bachelors of Science in Computer Management and Information Systems with a minor in Computer Science	

## EXPERIENCE

MIS Intern - PeopleSoft Developer, Fleishman Hillard, St. Louis, MO	June 2015 to present
• <b>Technical Design:</b> Developed, tested and migrated various modifications, upgrades and bug fixes to code.	
• <b>Technical Support:</b> Interacted with users via call and email to troubleshoot problems within PeopleSoft technology. Able to translate user requirements to structured code.	
• <b>Documentation:</b> Extensive documentation and communication to ensure a flawless modification and migration process. Robust code comments provide explanations for code construction and logic enabling future reviewers to understand the why and how of algorithms and code improvements.	
• <b>Data Querying:</b> Used Oracle SQL Developer to constructed queries to extract business information for users.
