

Wal-Mart Expansion into Super Center

To Edwardsville Intelligencer

Dear Mrs. Stewart,

Wal-Mart has just announced plans to expand and become a supercenter.

The Wal-Mart, located in Glen Carbon, has announced plans to add a garden center, Jiffy Lube and become a -hour facility. As of February 21, plans have been finalized to expand the facility.

Current owner and Edwardsville native, Paul Schuman, has been expressing his desire to expand the Wal-Mart into a supercenter simply to bring about easy access to late-night shoppers.

Construction of the supercenter is set to begin around late May 2015, the goal is to bring about a larger shopping base.

Sincerely,

Kayla Myers
