### **Live Well, Live With Us, Live at Enclave**

#### **Premiere Student Housing**

EDWARDSVILLE, Ill.- Enclave is premier student housing that students shouldn't miss out on. Living at Enclave is choosing to become a part of a student community. A fun place to live, surrounded by friends and peers is where a college students should be.

Enclave is made up of eight apartment complexes with 15 apartment units in each building. It offers three bedroom/three bathroom units as well as two bedroom/two bathroom units. For college students having their own bedroom and bathroom is a pretty big deal. Utilities are also included in the monthly rent as well as cable and internet. Then add in a dishwasher, plus a washer and dryer - what else could a college student ask for?

With Enclave, there is no need to ask because Enclave- also provides a pool, club house, and a 24-hour fitness center. The apartment complex holds resident activities to make the place feel more welcoming, and they collaborate with the University to encourage campus involvement. They recently had a block party and shuttled students to and from the homecoming soccer game at the University.

"It's like living in the dorms, being around all your friends, but more independent and having your own bathroom is a huge improvement. It's awesome and fun here," said Emily Vokes, a current resident.

-more-

Living in an apartment or house is all part of college life. The experience should be fun and exciting, and going from the dorms to a student community like Enclave gives students more room to be independent while away from home.

Corey Wenzel, the owner of Enclave, took all of this into consideration when developing this premier student housing.

“I want residents to make this their home, to enjoy living on the property and be surrounded by all their friends,” said Wenzel. “This community needed student housing like this to make the University more incorporated into Edwardsville.”

Meeting people and enjoying activities is what college is about and that is exactly what Enclave has to offer.

Live well, Live with us, Live at Enclave.
