### **Everything You Don't Know About the Lady Cougars**

In recent SIUE news the women student athletes have been making great efforts to improve our University's image. Raven Berry of the women's basketball team earned a place in the OVC all-conference team. Freshman Haley Chambers of the softball team received pitcher of the week, alongside Hilary Conrad who received student athlete of the week. Conrad has maintained an above average GPA for the past two years while competing on the track. The women of this University are excelling in and outside their perspective sports and deserve to be acknowledged. Support the women's sports teams of SIUE by attending one of their upcoming events.
